#### ELIA FL

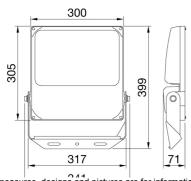

ELIA FL is an LED floodlight, available in medium and high-power versions for outdoor and indoor applications in industrial, tertiary and sports contexts, such as façades, warehouses, car parks and sports fields. Available in 4 different sizes and power steps (50 W, 100 W, 150 W and 200 W), the range allows for great flexibility with its multiple possible combinations: 3 colour temperature options (3,000 K warm white, 4,000 K neutral white and 5,700 K cool white) with a colour rendering index of more than 80; 2 integrated power supply options (On/Off and DALI); and 2 optics options (60° and asymmetrical). The luminaire can be ceiling, wall or floor-mounted through the integrated adjustable steel bracket with a protractor, or pole-mounted (in poles with diameter up to 61 mm) through a dedicated accessory (to be ordered separately). Thanks to its black powder-coated die-cast aluminium body and its front glass, the fixture is tough, durable (IP66 and IK08) and is able to withstand harsh environmental conditions (such as ambient temperature variations from -30°C to +50°C).

| GENERAL INFORMATION                          | -   | OPTIC AND ILLUMINATING FEATURES     | -   |
|--|---|-------------------------------------|---|
| Context                                      | Industry, logistics, facades, sporting facilities and outdoor area lighting | Optiek                              | Asymmetrisch  |
| Luminaire                                    | LED luminaire with mid and high lumen power                                 | Unified Glare Rating                | ULOR = 0%   |
| Toepassing                                   | Binnenshuis / buitenshuis   | Lumen-<br>vermogen (lm)             | 26600   |
| Unique digital code (Datamatrix)             | Currently not present   | Efficacy<br>(Im/W)                  | 133   |
