The background of the entire page is a high-quality photograph showing a collection of different smart switch plates from the ChoruSmart series. The plates are arranged in an overlapping, artistic manner. They come in various colors including dark brown, light beige, dark grey, and a deep teal. Some plates have traditional rocker switches, while others are sleek, minimalist touchscreens with glowing blue icons for functions like light control, fan speed, and temperature adjustment. The lighting is soft and even, highlighting the textures and colors of the materials.

SMART SOLUTIONS FOR EVERY BUILDING

Well-being, savings, safety

ChoruSmart is an innovative ecosystem by GEWISS offering a full range of functional and aesthetic solutions for every installation need, from residential to offices. Choose from a variety of technologies – traditional, wireless and bus – that offer the user significant benefits for well-being, safety, energy savings and sustainability.

A perfect synergy between the potential of smart devices, reliability of the traditional wiring devices range and the unmistakable styles of ChoruSmart plates.

CHORU **S** MART

Shape every project

ChorusSmart lets you design and install – completely and scalably – Traditional electrical installation, Connected Smart Home or Home&Building Pro systems, using the best available technologies, complemented by the wide range of shapes, colours and finishes of the devices and plates offered by GEWISS.

CHORUS SMART

Traditional electrical installation

The ChorusSmart proposal for a traditional system consists of **seamless aesthetic and wired technological solutions**, both simple and evolved, for any type of building. It offers innovative control units such as the **EVO axial** versions and touch variants, which allow you to **centralise lights and shutters** easily, in addition to traditional rocker and soft click controls. The offer also includes national and international standard sockets, technical alarms, signal picking devices, protection, people safety and home comfort management.

Connected Smart Home

ChorusSmart is enhanced with connected devices to create a range of smart, convenient and wireless solutions. **EGO SMART plates** are the distinctive elements for the whole ecosystem. They offer a unique and customisable interface for easily managing **safety, comfort and household consumption**.

The Zigbee wireless protocol, integration with the major Smart Speakers on the market and with the Google Home IoT platforms, Amazon Alexa and IFTTT – via to the **Home Gateway APP** – permit fingertip and vocal management of lights, shutters and scenarios, energy consumption and the detection of critical situations. The battery-free and wireless control units give you the option to add additional control points as the need arises.

ChorusSmart's Connected Smart Home range is the perfect solution for residential and small business applications, both for **new builds** and for **renovating and updating existing facilities** with minimal structural intervention.

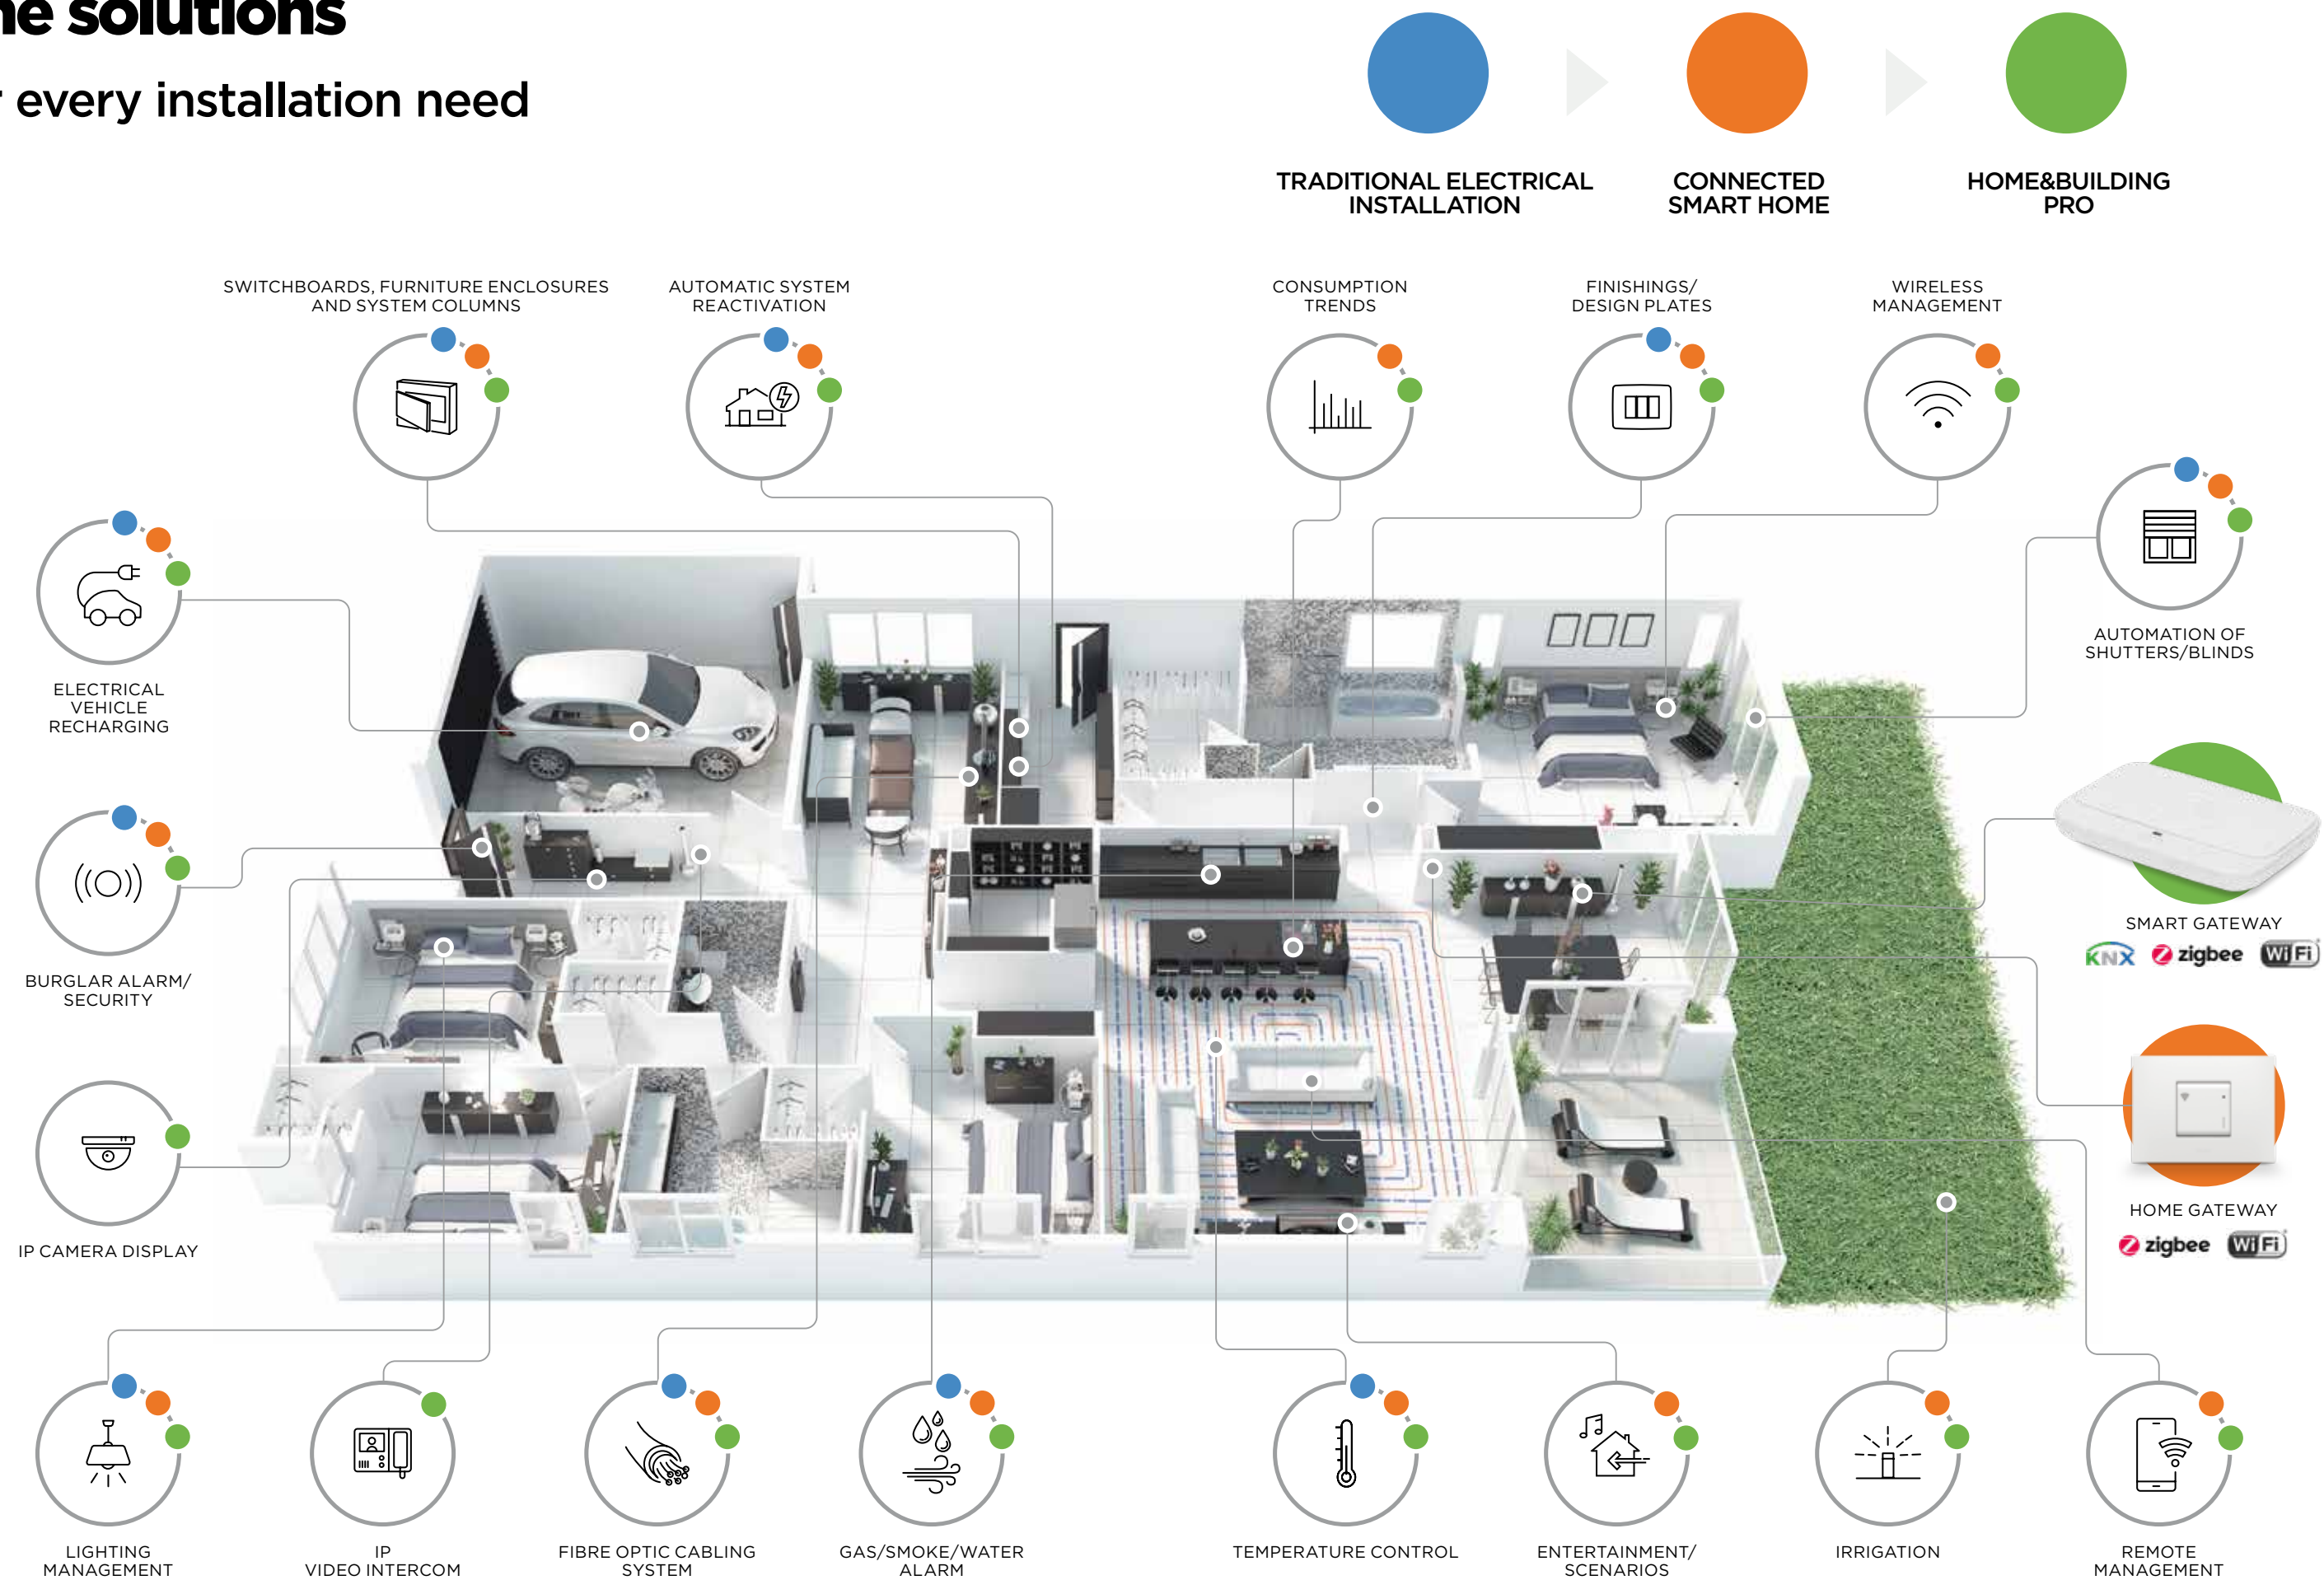

Home&Building Pro

If you complete the ChorusSmart offer with bus wiring, configured on the **KNX international standard protocol**, you can create an **advanced and extended system**. The system created will be **smart and customisable, complete** with all the features, **capable of integrating** with third-party devices and systems – video, smart lock, entertainment – controlled via apps, voice assistants or touch panels. The Home&Building Pro system is suitable for advanced automation solutions for residential and small to medium businesses and ensures safety, protection, well-being, efficiency and sustainability.

The solutions

for every installation need

TRADITIONAL ELECTRICAL INSTALLATION

Solutions to suit every style

Within the ChoruSmart traditional electrical installation, GEWISS offers you basic and advanced solutions for residential and office applications, based on a broad offering of modular devices where technology meets Italian design. ChoruSmart combines sophisticated aesthetics, cutting-edge technologies and advanced features continuously updated with improvements and innovations.

BENEFITS FOR YOU AND YOUR CUSTOMER

With ChoruSmart, you can create a reliable and complete traditional system, where every component has been designed to ensure wiring simplicity, compactness and a wide choice of colours and finishes to satisfy even the most demanding customer.

FLEXIBLE SYSTEM

A combination of colours, materials, finishes and shapes, allowing you to offer your customer the wide range of **ChoruSmart plates**, all perfectly interchangeable thanks to using a **single support**. Decorate any environment easily and seamlessly, starting with plates made in technopolymer to those made of the finest materials, such as metal, wood and glass, both in Italian and international standard modules.

ADVANCED CONTROLS

ChoruSmart offers the best technologies for a functional and aesthetic experience, suitable for everyone. In particular, the new **axial EVO** and **touch control units**, are both elegant and refined, and can be configured to **centralise the management of lights and shutters** with an extremely simplified installation.

DÉCOR DESIGN

ChoruSmart modular devices come in **five different colours** - two with a glossy finish and three with a satin finish. Furthermore, thanks to control units available in both **axial** and **rocker versions**, and plates made in **five different shapes**, they can effectively respond to any market demand.

INTERNATIONAL SOLUTIONS

The sockets, control units and plates are available in a wider range of **international standards**, offering exceptional versatility of installation options to meet all needs.

EGO PLATES

EGO is the new family of plates in the ChoruSmart ecosystem consolidating the GEWISS offer. EGO is designed with modern lines, slightly curved surfaces and minimal thickness, to transmit balance and essentiality. The opalescent profiles, harmonious with the EGO SMART versions, add a subtle hint of unique style. Each detail is designed to ensure attractiveness and individuality.

The plates are available in two versions:

EGO

Traditional plates that complement the current range of ONE, GEO, LUX and ICE, and expand ChoruSmart's interior décor offer.

Available in the following modularities:

- 1-, 2-, 3-, 4- and 7-module for rectangular boxes
- 2-, 2+2 (horizontal and vertical) and 2+2+2 (horizontal) module for round and square boxes

EGO SMART

Plates feature an integrated graphic display showing animated icons and scrolling text messages, a coloured LED light perimeter lighting system, and a proximity sensor.

Available in the following modularities:

- 3- and 4-module rectangular boxes
- 2-module round and square boxes

They are the perfect solution for systems installed with Connected Smart Home devices.

The plates are made of technopolymer, in 12 different shades of colour, with a satin finish, for seamless coordination with all ChoruSmart devices.

The two versions complete each other and can be combined in the same system. They have the same shape, size, and identifying elements, including the colour palette, finishes, and opalescent profiles on the inside of the plate.

7-MODULE SUPPORTS FOR EGO PLATES

The current range of ChoruSmart standard supports is enhanced with a new element, specific for the 7-module modularity of the EGO plates, suitable for screw fixing on 6-7 modules rectangular boxes, for masonry or plasterboard walls.

ONE, GEO AND LUX PLATES

The ONE, GEO and LUX plate families of the ChoruSmart ecosystem have updated their colours and finishes in tune with the current market trends and with a greater focus on the most environmentally friendly production processes: the reduction of galvanic treatments by 40%.

ONE and GEO

ONE, casual looks and classic forms, and GEO, with minimal and regular profiles, are the ChoruSmart system plate lines dedicated to those wishing to decorate their home with the essential simplicity that never is lacking for style. Their understated and discreet design enhances any environment, bringing harmony and aesthetic consistency to every room.

Available in 12 colours: ONE and GEO offer a choice of glossy and satin finishes, classic, neutral colours and the new **Tuscan red, Teal, Soft copper and Gold** versions.

LUX

LUX plates, with their modern, refined lines, unite the high-tech spirit of modernity with the refined and elegant taste of tradition. Wood, leather, glass and metal versions are added to the classic technopolymer plates.

The entire range has been revised and optimised in line with the current trends, with internal frames matched to the plate and new colours. The classics and neutral colours have been reconfirmed and new colours added, particularly for the versions in premium materials. Colours introduced for the glass are **Natural reflection and Pearly gray**; for wood, **Walnut* and Light oak***; for metal, **Anodic brown*, Magnetic gray*, Soft copper*, Antique brass and Gold**.

** Colours reserved for rectangular shapes only.*

ICE PLATES

ICE glass plates meet the most sophisticated technological and aesthetic needs and represent a new frontier for lighting devices. Available in white, natural beige, black and titanium, ICE can house the modular ChoruSmart Series devices: control units, energy picking systems, protection and signalling, comfort and climate.

2-module

For an even richer and more comprehensive offer, the modularity of the ICE plates, already available in 3- and 4-module rectangular standard, has expanded to **2- and 6-module** for rectangular boxes.

6-module

ICE TOUCH PLATES AND DEVICES

The ICE TOUCH family of plates in the ChoruSmart ecosystem is renewed in functionality and aesthetics. The plates, made entirely of glass with a glossy finish, are available in white, natural beige, titanium and black. They offer up to **6 touch areas with backlit symbols** and are suitable for 3-module rectangular boxes.

The ICE TOUCH plates combine with a wide range of touch modules, designed to deliver maximum performance every time.

Each plate can accommodate up to 3 touch modules with illuminated symbols that can be customised with interchangeable adhesive symbols.

All devices are equipped with blue LEDs, with two brightness levels and a buzzer that can be set on or off.

The new touch modules, in addition to better management of LED loads, allow you to control the movement of electric motors and **centralise, with a single button, light and shutter controls**, without any need for the App or connection to the cloud. Centralisation is done by a simple wire connection.

AXIAL CONTROLS - EVO

Axial-operated family of controls for managing lighting fixtures and electric motors.

It offers **centralisation of light and shutter controls**, including switching off all lights and closing blinds with a single command, without the need for the app or connecting to the cloud. Centralisation is done by a simple wire connection.

ERGONOMICS

Axial controls have a sophisticated modern design and are aesthetically pleasing as they remain perfectly aligned even after they are operated.

Tactile comfort: Thanks to the reduced stroke of the button keys, and the lightness of pressure required to activate them.

Low noise: The soft-click activation is similar to that of digital controls.

Perfect control: the controls are activated by pressing anywhere on the surface of the buttons: top, bottom or in the centre.

A COMPLETE RANGE OF FUNCTIONS

Axial control units include devices with **switch, dimmer, and shutter control functions**. They also have inputs to replicate the local command of the load via auxiliary modules or buttons and to centralise controls.

COMPLETELY CUSTOMISABLE

Axial controls are provided without button keys to provide maximum flexibility for customisation and installation, both in functionality and style.

Illuminated diffusers: blue backlight to locate button keys in the dark or to indicate functions using interchangeable lenses.

Modularity: one or two module versions, with single control for lights or double control for shutters and dimmers.

Available in five colourways: the axial controls can be completed with button keys chosen from five colorways, two with a glossy finish (white and titanium), and three with a satin finish (white, natural beige and black).

The EVO axial controls are completed with any ChoruSmart plate: ONE, GEO, EGO/EGO SMART, LUX or ICE.

VERSIONS

Axial controls are available in two versions:

EVO modules: equipped with the advanced control centralisation function

Traditional auxiliary modules: to extend and replicate the command of the EVO modules

MOTION SENSORS

In the ChoruSmart series, GEWISS is renovating its range of motion and presence sensors, introducing two new models that guarantee energy savings. The lights only activate if there is an actual need. Ideal in residential and small/medium office settings.

Motion detector: flush-mounting, 1 module, with minimal overhang.

Presence detector: from ceiling, with 360° sensing range and mounting height from 2.2 up to 6 meters.

USB CHARGERS

In the ChoruSmart series, GEWISS introduces a new range of USB sockets to charge up to two mobile devices (smartphones, tablets) simultaneously.

Type A+A: flush-mounting, 1 module, max. 3 A

Type A+C: flush-mounting, 1 module, max. 3 A

The charging system is divided into the two outputs, depending on the charging status of the connected devices.

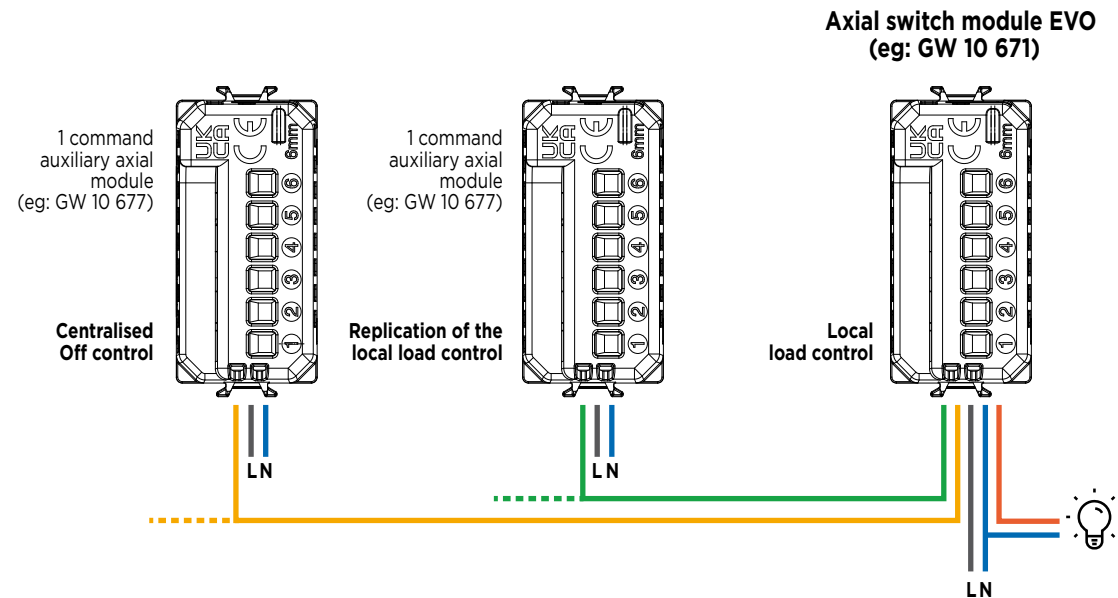

AXIAL SWITCH MODULE - EVO

Axial-operated device with front button key and 5A relay output (AC1) for on/off control of a light load. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-module for flush-mounting.

WIRING DIAGRAMS

Example of command from multiple points of a light load, with the addition of a centralised Off command.

EXPLANATION

The two inputs of the axial switch module EVO can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons, sensors) and used, **independently of each other**, to replicate the command of the local load and to create the centralised Off command.

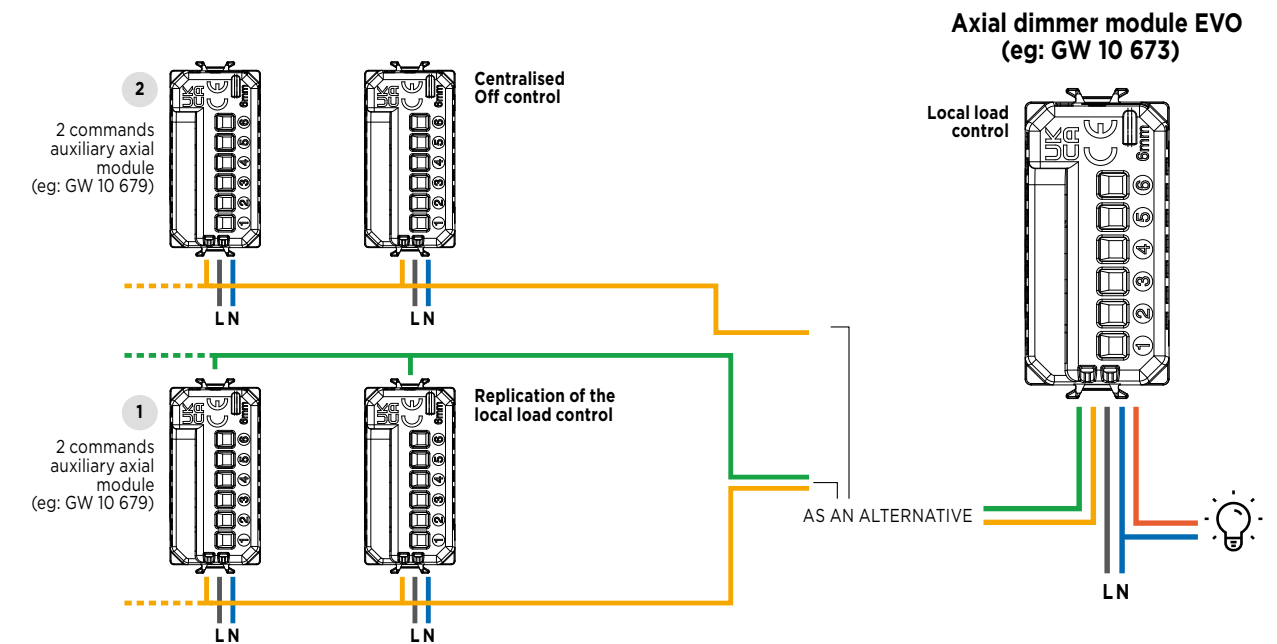

AXIAL DIMMER MODULE - EVO

Axial-operated device with 2 front button keys for adjusting a illuminating load through a dimmer output (4-150W). To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-module for flush-mounting.

WIRING DIAGRAMS

Example of command from multiple points of a lighting load ① or, alternatively, of centralised Off commands ②.

EXPLANATION

The two inputs of the axial dimmer module EVO can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons, sensors) and used, **in pairs**, to replicate the command of the local lighting load and to create the centralised Off command.

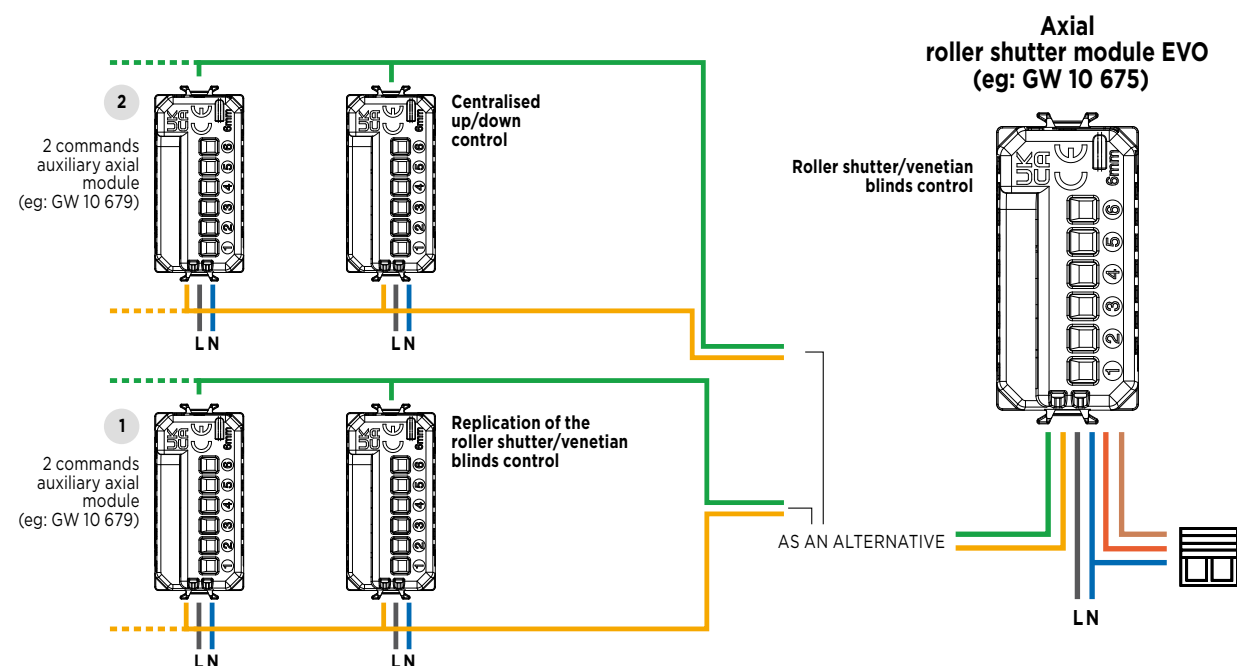

AXIAL ROLLER SHUTTER MODULE - EVO

Axial-operated device equipped with 2 front button keys for moving shutters, curtains, awnings, Venetian blinds, rollers and louvre adjustment, through 2 interlocked 2.3A output contacts. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-module for flush-mounting.

WIRING DIAGRAMS

Example of a multi-point control of a shutter/Venetian blind ①, or alternatively, of centralised up/down commands ②.

EXPLANATION

The two inputs of the axial roller shutter module EVO can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons, sensors) and used, **in pairs**, to replicate the command of the local roller/Venetian blind load or alternatively, to create the centralised up/down command.

IMPORTANT: the centralised control permits a fully opened/closed movement of the shutters/venetian blinds; it does not permit adjusting shutters into intermediate positions or the louvres.

1 COMMAND AUXILIARY AXIAL MODULE

Axial-operated device with front button key to replicate local load command or manage centralised commands, in conjunction with axial modules EVO. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-module for flush-mounting.

2 COMMANDS AUXILIARY AXIAL MODULE

Axial-operated device with 2 front button keys to replicate a local load command or manage centralised commands, in conjunction with axial modules EVO. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-modules for flush-mounting.

INTERESTING FEATURES

- Configuration of 2 separate times for delayed start of the motors and to reduce "inrush currents"
- Switch or push-button mode function set up
- End user can set a "preferred" position

CENTRALISED CONTROL: LIGHTS

Example of centralising the lights (Off) command.

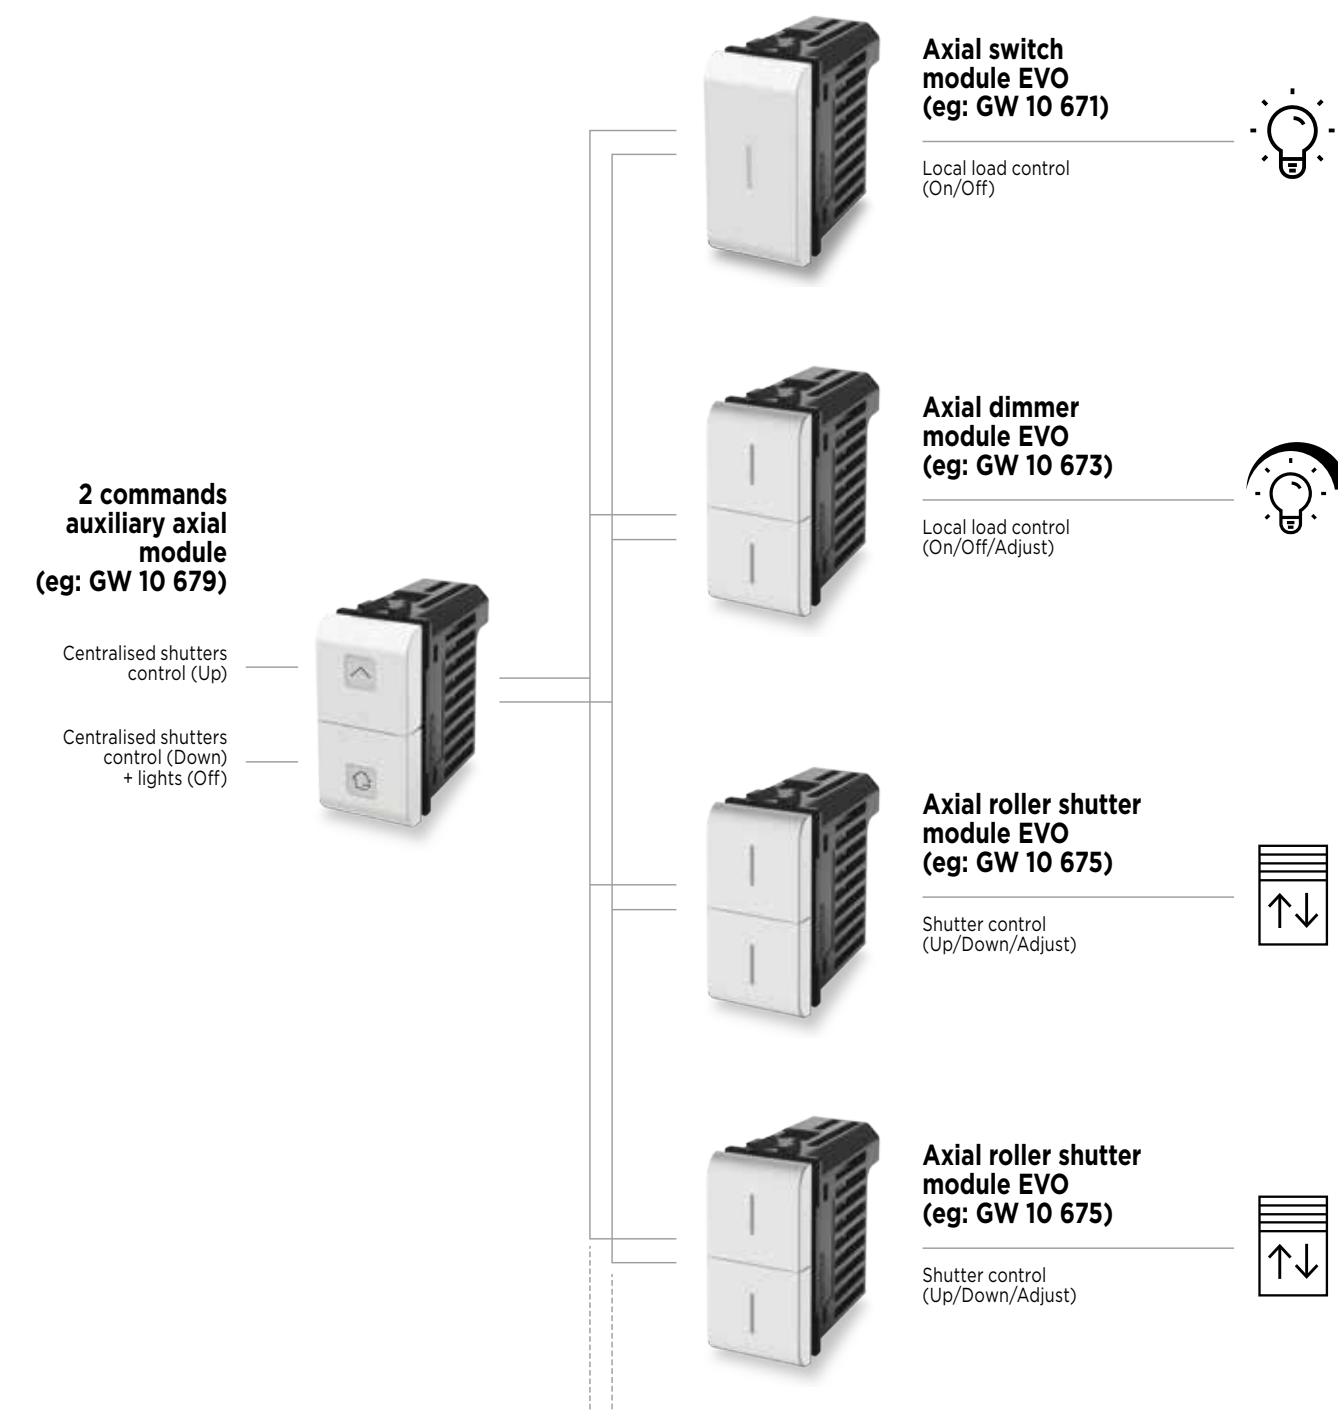

CENTRALISED CONTROL: SHUTTERS

Example of centralising the Up/Down command of the shutters/venetian blinds.

CENTRALISED CONTROL: LIGHTS AND SHUTTERS

Examples of centralising the Off command of the lights and Up/Down command of the shutters/venetian blinds.

NOTES

All centralised functions and related diagrams also apply to solutions made with touch modules. In addition, centralised commands can also be created via traditional control units.

CONNECTED SMART HOME

Beyond the traditional system

Connected Smart Home by ChoruSmart offers innovative solutions for the connectivity requirements of today's home. The traditional wired system is enhanced by the addition of radio technology, used to connect all smart devices, creating a unique and up-to-date experience for each user.

GEWISS **connected devices** are simple to install because the wiring is like that of a traditional electrical installation; they are intuitive to configure, and innovative and elegant thanks to axial controls.

For **new systems** or those **undergoing an update**, GEWISS has the solutions for you to manage lighting, shutters, motorised awnings and blinds, scenarios, temperature, controlled sockets, and to control the consumption of your home without invasive or costly structural intervention.

Smart control of the system is made easy and intuitive thanks to the **EGO SMART plates**, **Home Gateway app** and **voice commands**, making life in the home simple and safe for people of all ages, even with motor or functional disabilities.

BENEFITS FOR YOU AND YOUR CUSTOMER

With devices from the Connected Smart Home family and the Home Gateway App, GEWISS gives your customers the solution to control the entire home with just a few simple gestures.

RELIABLE SYSTEM

You can create a classic hardwired electrical system where all the traditional functions - lights, blinds, thermostats - are wired and immediately operational as soon as the installation is finished before set up via the APP. Then add in the smart features - scenarios, consumption monitoring, load control, app management, integration with voice assistants and IoT devices - that exploit the flexibility of wireless technology of the connected devices. The **reliability** of traditional wiring combines with the **advanced functionality** of connected devices.

UPGRADABLE AND SCALABLE SYSTEM

Thanks to wireless technology, devices in the Connected Smart Home family allow **new features** to be added to the traditional system without the need for structural intervention. For example, the ECO push-button panel does not require power or electrical connections. It is the ideal solution for systems that need to be upgraded, as well as for new systems.

UNDEMANDING INNOVATION

Customers can continue to manage their homes through traditional control units which can have an added smart control via smartphones and voice commands. And you can continue to design and install using the established principles of traditional systems.

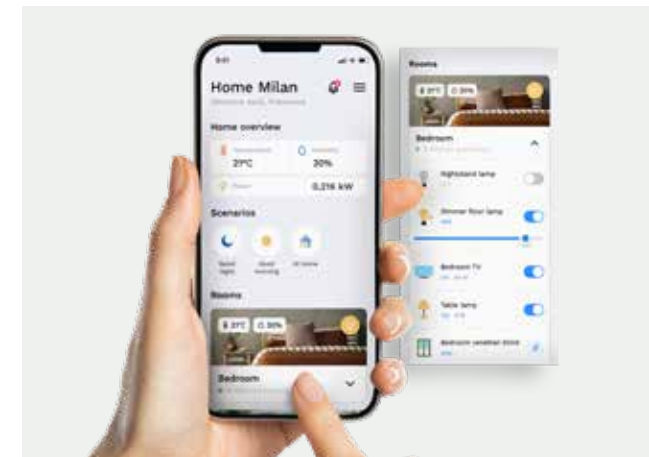

HOME GATEWAY: A UNIQUE APP

Home Gateway is a unique app that guides you step-by-step through your installation for a simple and intuitive setup. With the same app, the end user safely manages and controls the entire home.

WHAT YOUR CUSTOMER CAN DO

Thanks to Connected Smart Home solutions, controlling lights, roller shutters, motorised awnings and controlled sockets, managing scenarios and temperature, visualising consumption and historical trends has never been easier and safer.

THE HOME IN YOUR HAND

An app for the whole home. The **Home Gateway app** lets you manage your entire home: from system configuration to operation. With modern, streamlined graphics, a one or two-tap access to every function on the display, and a sliding Home Page, you can monitor your entire home at a glance.

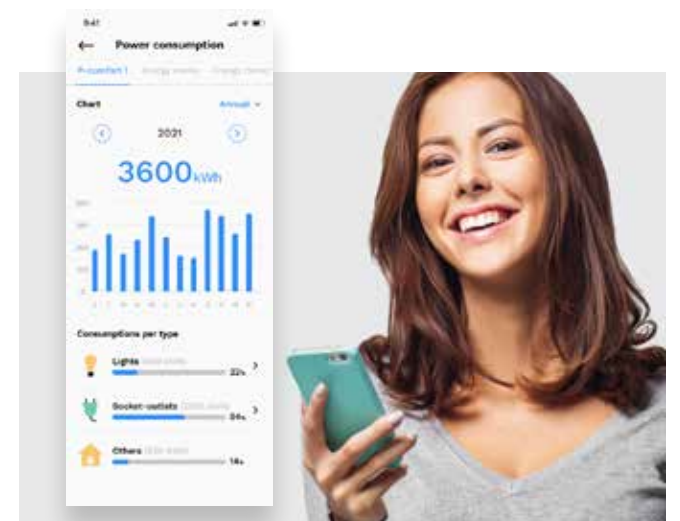

VOICE CONTROLS

Using your favourite voice assistant - Alexa or Google Assistant - you can manage your home with simple voice commands. It is also ideal for people with mobility and functional impairment.

SAFETY FIRST

In the event of technical alarms, such as water loss, gas leaks, or a window left open, weather alarms, or movement detections in an area, you can receive **alarm notifications on your smartphone** or the **EGO SMART plate display**. Knowing what's going on at home immediately increases the safety of those living there and is an enormous help especially for those who are most fragile.

ENERGY CONSUMPTION

Displays real-time consumption, historical trends, and performs the load control function to prevent excessive consumption from detaching the apartment meter.

SYSTEM ARCHITECTURE

The wireless technologies used - Zigbee, WiFi and BLE* - are managed using Home Gateway, the heart of the entire system, interfacing to your home WiFi router. The Home Gateway App enables control and management of home functions via smartphone/tablet, both locally and remotely.

* BLE is used during device configuration phases with smartphones and Home Gateway Apps.

KEY: ■ Integration with third-party solutions

BASIC FUNCTIONS

The **basic functions** of the traditional system, lights, shutters, controlled sockets and temperature control, are always **wired** and operate immediately after installation, before system configuration.

SMART FEATURES

Smart features are achieved through **wireless connections** between connected devices: scenarios, consumption monitoring, load management, supervision and control with apps, voice commands, cloud/IoT integrations.

CONNECTIVITY

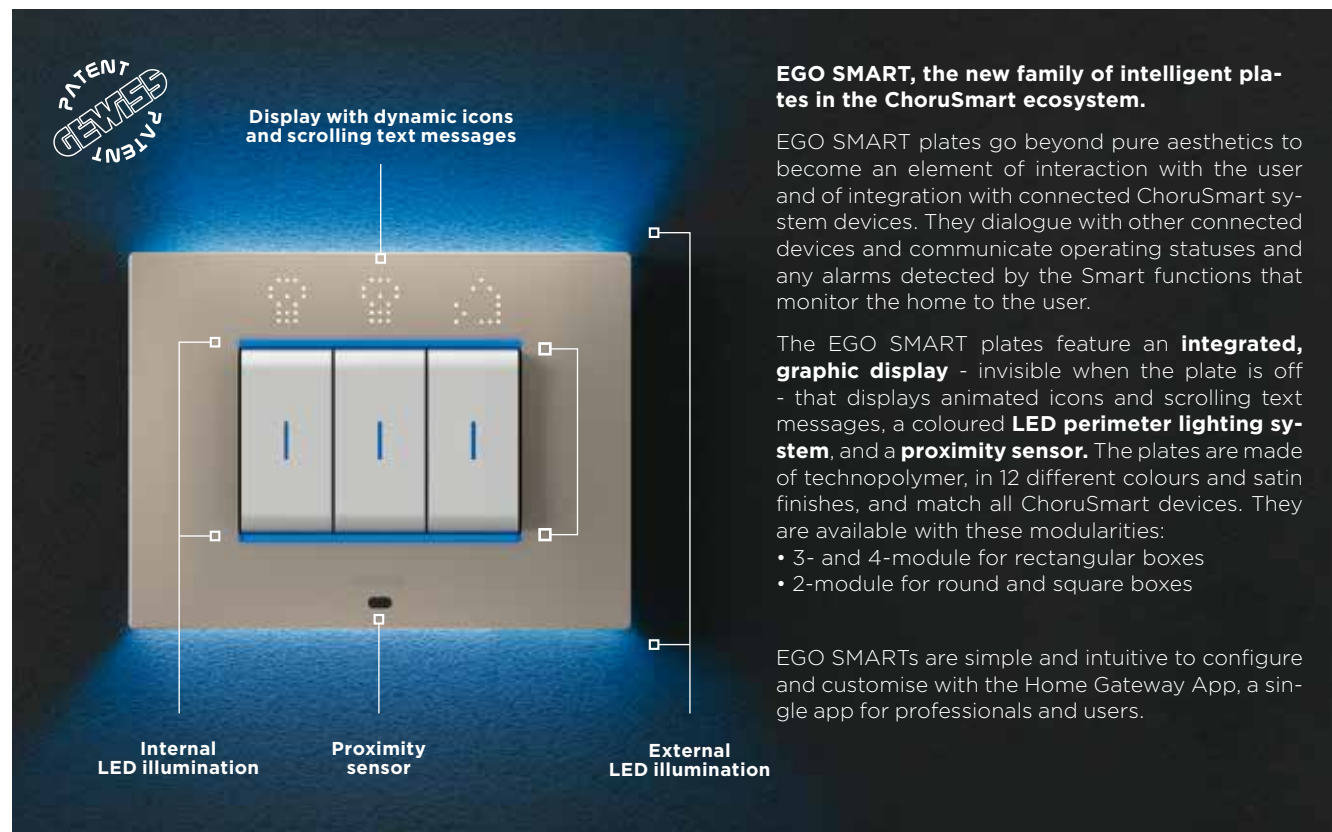

An internet connection is required for access to the cloud, to ensure control over the system via the app, to integrate voice assistants and to use IFTTT applets. The remaining system features - lights, shutters, controlled sockets, scenarios, temperature control, etc. - operate even in the absence of connection.

INTEGRATION WITH IFTTT

The system is compatible with the IFTTT platform. The platform enables operating logic - applets - useful for automating scenarios and actions if events occur in the home system, even those associated with third-party devices and services. For example: switching off the heating when leaving home - Geofencing -, send a notification on Telegram in case of flood alarm, etc.

EGO SMART PLATES

FUNCTIONALITY

The plates provide information about the system status with simple and immediate visual feedback.

Dynamic graphic icons: identify the function of the control units hosted in the plate and change shape to indicate the activation, operation or status of the controlled loads.

Scrolling text messages: signal alarms, scenarios, consumption.

LED perimeter backlight: edges illuminate with a coloured beam of light. Each colour corresponds to a different notification.

DOUBLE THE FUNCTIONS IN HALF THE SPACE

The EGO SMART plate, extends the range of functions managed from the same control unit. The frontal proximity sensor, activated manually, enables the SHIFT mode of the plate and increases the control functions installed. Double the functions in less space and with no increase in cost.

DISCREET

The plate goes on stand-by after a period of inactivity, ensuring power savings and a more discreet presence during the night, it activates automatically to notify of technical alarms or when the frontal proximity sensor is activated by a hand movement.

The EGO SMART and EGO plates can be combined in the same system. They have the same shape, size, and identifying elements, including the colour palette, finishes, and opalescent profiles on the inside of the plate.

EGO SMART PLATE SUPPORTS

The EGO SMART plates use specific 3- and 4-module smart supports with screw fixing on rectangular boxes and 2-module smart supports, suitable for fixing with screw or clutches on round/square boxes.

The supports have self-threading screws for increased tightening speed and are suitable for all ChoruSmart 1/2, 1, 2 and 3 module devices. They are compatible with all other ChoruSmart plates.

CONNECTED AXIAL CONTROLS

The family of axial-operated control units is ideal for controlling and adjusting lights and shutters and implementing scenarios. They have a pleasant feel to the touch, thanks to the reduced stroke of the buttons and the lower pressure required for activation. Plus, the soft-click activation, reminiscent of digital controls, makes them extremely quiet.

ALL-ROUND FUNCTIONS

Connected axial control units include devices with **2-way switch, dimmer** and **shutter control functions**. They are quick to wire, as in a traditional installation, but thanks to Zigbee radio modules, they connect to the Home Gateway and smart devices in the installation to extend the control of the home via apps or voice commands.

COMPLETELY CUSTOMISABLE

Axial controls are provided without keys to provide maximum flexibility for customisation and installation, both in functionality and style.

Illuminated diffusers: blue backlight to locate button keys in the dark or to indicate functions using over 40 interchangeable lenses.

Modularity: one or two module versions. 1-module button keys are practical and space-saving, 2-module button keys are ideal for activating frequently used commands.

Available in five colourways: the axial controls can be completed with button keys chosen from five colorways: two with a glossy finish (white and titanium), and three with a satin finish (white, natural beige and black).

ERGONOMICS

The entire surface of the control unit is active. For perfect control, the button keys can be enabled at any point: top, bottom or in the centre.

Tactile comfort: thanks to the minimised stroke of the button keys, and the lightness of pressure required to activate them.

Low noise: The soft-click activation is similar to that of digital controls.

VERSIONS

Axial controls are available in two versions:

Connected modules: with on-board radio module and auxiliary inputs to connect non-smart devices and multiply functions.

Traditional auxiliary modules: to extend and replicate the command of the connected modules.

Connected axial control units are completed with any ChoruSmart plate: ONE, GEO, EGO/EGO SMART, LUX or ICE.

DIAGNOSTICS OF THE CONTROLLED LOADS

The connected devices (2-way switch, dimmer and shutter control) constantly monitor the controlled loads and are able to report any anomalies such as loads disconnected or loads with a power consumption below the minimum controllable threshold (eg: lamps). The signalings are reported with a blinking red led for 2-way switch and shutter control modules, steady yellow for dimmer modules.

ECO PUSH-BUTTON PANEL

The ECO push-button panel sends wireless commands via the 4 front buttons and does **not require hardwired connections, power or batteries.**

VERSATILE

It can be mounted on any surface, wall or recessed, or simply placed on a surface (table, bedside table) as though it was a remote control. Wireless technology lets you move and reposition it wherever your customer wants it, even afterward.

Wall-mounting: via the provided pre-drilled base that can accommodate rectangular or square plates.

Flush-mounting: via the supplied accessory it can be installed on all ChoruSmart supports just like any device that occupies 2 modules.

MULTIFUNCTION

Handles up to 4 command points, configurable to operate individually or in pairs, and lets you create scenarios, control lights on/off and dimmers, shutters, awnings and general purpose actuators.

WITHOUT BATTERIES

The technology it is built with allows it to self-charge using the energy generated by pressing the buttons. It is environmentally friendly as it does not require batteries, avoiding the need for interventions to replace them.

CUSTOMISABLE

The ECO push-button panel comes with no buttons, allowing maximum customisation and installation flexibility in both functionality and style.

Modularity: to be completed with two 1-module buttons, for up to 4 commands and to leverage all available channels, or with a single 2-module button, for up to 2 commands, for easy operation of the most commonly used functions.

Available in five colourways: two with a glossy finish: white and titanium, and three with a satin finish: white, natural beige and black.

* Wall-mounting base is customisable (pre-drilled) enabling it to house 2-module ChoruSmart plates: ONE, GEO, EGO, LUX, ICE rectangular or square standard.

TRANSFORMS A TRADITIONAL SYSTEM INTO A SMART SYSTEM

It's the simplest possible way to upgrade a traditional system, transforming it into a connected one, thanks to Connected Smart Home, as there is no need to change the existing electrical connections and no need to change the homes' distribution board.

1 REPLACE TRADITIONAL DEVICES WITH CONNECTED ONES

Replace the systems' traditional electromechanical devices with connected devices: just one for each light circuit, shutter or controlled socket. Remember that connected devices must always be powered through the same Line and Neutral lines that power the load.

IMPORTANT

At the end of this phase, all the functions of the traditional system are available, without the need for any configuration: in fact, by connecting power to the system, you can already control the lights, adjust their brightness and move the shutters!

2 INSTALL HOME GATEWAY

Install the Home Gateway in a classic recessed box. Make sure it is well-within the WiFi field generated by your home router.

Alternatively, the Home Gateway can also be installed in the apartment cabinet using DIN rail supports.

3 OPTIONAL: ADD NEW FEATURES INTO THE SYSTEM

Tap into the full range of devices offered by the Connected Smart Home to expand the capabilities of your system. For example, you can install EGO SMART plates, ECO push-button panels, presence sensors, or temperature control devices.

4 DOWNLOAD HOME GATEWAY APP

Download the App from stores and install it on your smartphone to continue setting up your devices.

5 ASSOCIATE AND CONFIGURE CONNECTED DEVICES

Create associations between connected devices and the Home Gateway and easily and intuitively configure all system's smart and cloud functions!

The configuration phase is done! From now on all the home features are available for your customer to use, even remotely, via the Home Gateway app!

CONNECTED AXIAL 2-WAY SWITCH MODULE

Axial-operated device with front button and 2 interlocked relay outputs 2A (AC1), to create the 2-way switch function. Equipped with a Zigbee technology radio module. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-modules for flush-mounting.

WIRING DIAGRAMS: TRANSFORMING AN EXISTING SYSTEM INTO A SMART SYSTEM

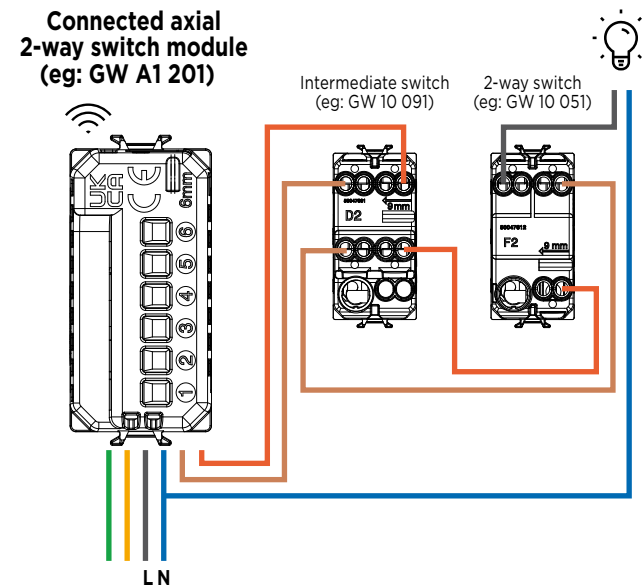

Wiring example of the connected axial 2-way switch module into an inverted light circuit* in an existing traditional system.

* The process is the same even in the case of an interrupted or diverted light point.

TRADITIONAL ELECTRICAL INSTALLATION

SMART SOLUTION

EXPLANATION

The two inputs of the connected axial 2-way switch module can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons and switches) and used, **independently of each other**, to replicate the command of the local load or send generic commands or Zigbee statuses in the system (eg: on/off scenarios). Their functionality is set up during the configuration phase.

WIRING DIAGRAMS: NEW SYSTEM INSTALLATION

Wiring example of the connected 2-way switch axial module to make a 4-point controlled light circuit, with the addition of a centralised Off control.

When installing new systems, the use of auxiliary inputs to replicate local command or execute Zigbee commands greatly simplifies all wiring operations and minimizes the number of components and thus reduces the cost of the system.

CONNECTED AXIAL DIMMER MODULE

Axial-operated device with 2 front button keys for adjusting a illuminating load through a dimmer output (4-150W). Equipped with a Zigbee technology radio module. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-modules for flush-mounting.

WIRING DIAGRAMS

Wiring example of the connected axial dimmer module to transform an existing traditional system into a smart system or for the installation of a new system.

TRADITIONAL ELECTRICAL INSTALLATION

SMART SOLUTION

EXPLANATION

The two inputs of the connected axial dimmer module can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons and switches, sensors) and be used **in pairs**, to replicate local light load regulation or to send generic commands or Zigbee statuses in the system (eg: on/off, dimmer, blinds, scenarios), or **separately**, with one of the two inputs to replicate the command for local load regulation and the other input to send a generic command or Zigbee status to the system. Their functionality is set up during the configuration phase.

CONNECTED AXIAL ROLLER SHUTTER MODULE

Axial-operated device equipped with 2 front buttons for moving shutters, curtains, awnings, Venetian blinds, rollers and for louvre adjustment, through 2 interlocked 2.3A output contacts. Equipped with a Zigbee technology radio module. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-modules for flush-mounting.

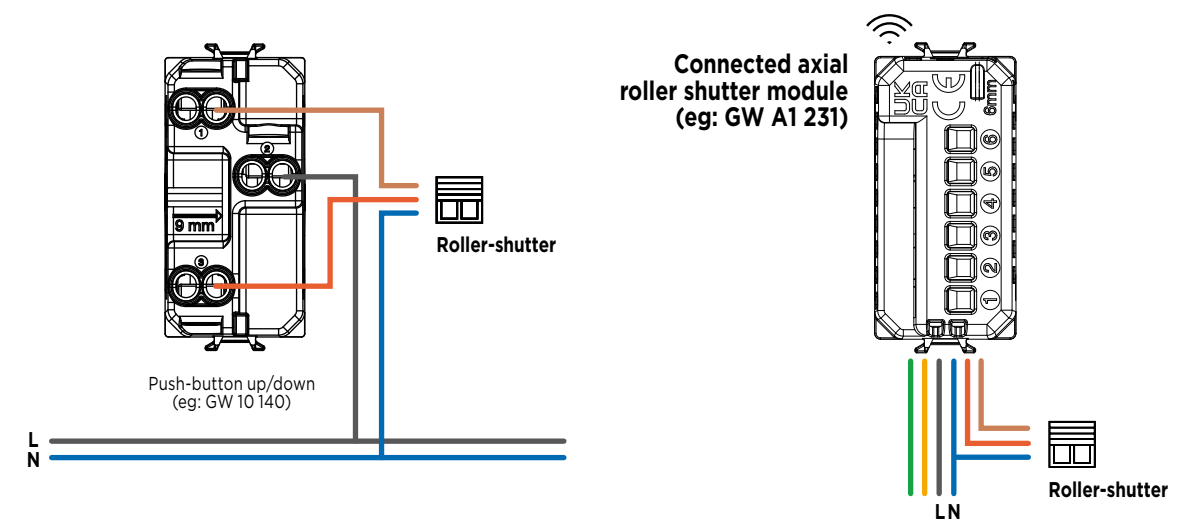

WIRING DIAGRAMS

Wiring example of the axial roller shutter module connected to transform an existing traditional system into a smart system or for the installation of a new system.

TRADITIONAL ELECTRICAL INSTALLATION

SMART SOLUTION

EXPLANATION

The two inputs of the connected axial roller-shutter module can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons and switches, sensors) and be used **in pairs**, to replicate local light load regulation or to send generic commands or Zigbee statuses in the system (eg: on/off, dimmer, shutters, scenarios), or **separately**, with one of the two inputs to replicate the command for local load regulation and the other input to send a generic command or Zigbee status to the system. Their functionality is set up during the configuration phase.

2 COMMANDS CONNECTED AXIAL MODULE

Axial-operated device with 2 front buttons for sending independent Zigbee commands to the system (eg: scenarios, dimmers, centralised control of shutters/venetian blinds). Equipped with a Zigbee technology radio module. To be completed with interchangeable buttons, available in ChoruSmart 1- and 2-modules for flush-mounting.

WIRING DIAGRAMS: SCENARIO CONTROL

Wiring example of a 2 commands connected axial module to run two scenarios (Input and Output) from two distinct points.

In the diagram above, you can use either an auxiliary axial 2 control module (eg: GW 10 679) or, alternatively, auxiliary axial 1 control modules (eg: GW 10 677), connected to either Input 1 or Input 2.

EXPLANATION

The two inputs of the 2 commands connected axial module can be connected to N.O. contacts (eg: auxiliary axial modules, and traditional push-buttons and switches) and used, **independently of each other**, to replicate the command of the local load or send generic commands or Zigbee statuses in the system (eg: on/off scenarios). Their functionality is set up during the configuration phase.

CONNECTED 1-CHANNEL ON/OFF ACTUATOR WITH ENERGY METER

Actuator device equipped with a 16A relay output for controlling a generic load, which measures the power consumption and the energy consumed and can detach the load when a power threshold is exceeded. It has a front button for the local load control. Equipped with a Zigbee technology radio module. It is available in ChoruSmart 1-module version for flush-mounting.

WIRING DIAGRAMS: CONTROLLED SOCKET

Wiring example of the 1-channel on/off actuator connected to a power socket to turn it into a controlled socket.

In the diagram above, you can also leverage the connected 1-channel on/off actuator input to connect one or more 1 command axial modules in parallel (eg: GW 10 677) and configure them to replicate the local load command.

EXPLANATION

The input of the connected 1-channel on/off actuator can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons and switches, sensors) and used to replicate the local load command or, alternatively, to send a generic command (eg: on/off, dimmers, shutters, scenarios) or Zigbee status in the system. Its functionality is set up during the configuration phases.

CONNECTED ENERGY METER

A device that measures the power consumption and the energy consumed. Connects to a single-phase line or to the single line of a three-phase system - max current: 70A, via transformer - A.T. Thanks to an algorithm that controls loads, it can even handle up to 10 loads - using detachment and reattachment logic when a defined power threshold is exceeded - when combined with the following connected actuators: GW 1x 826, GW A1 201, GW A1 202, GW A1 221, GW A1 222, GW A1 523, GW A1 526, GW A1 521 or GW A1 522. Equipped with a Zigbee technology radio module. Available in a retractable version, which can be housed both in the apartment cabinet using DIN rail supports, as well as in junction boxes or in ChoruSmart 1-module blanking modules (GW 1x 750) for flush-mounting.

GW A1 918

- 1 Input +

WIRING DIAGRAMS: LOAD MANAGEMENT

Wiring example of the connected energy meter to detect the power consumption of a single-phase line and intervene on connected actuators present in the system to manage loads.

CONNECTED MOTION SENSOR

Device for detecting the passage/movement of people within a radius of up to 8 metres, which can be activated depending on the ambient brightness threshold. Equipped with a 2A relay output (AC1) for controlling a generic load. Equipped with a Zigbee technology radio module. It is available in ChoruSmart 1-module version for flush-mounting.

GW 1x 856
1 Module

Blue LED for signalling detected movement

TERMINAL DESCRIPTION

- 6 Neutral

- 4 Input 1
- 3 Input 2
- 2 Not used
- 1 Output

WIRING DIAGRAMS

Wiring example of the connected motion sensor to handle a light load, with the addition of auxiliary modules for the control of the load from 2 points.

In the diagram above, you can also leverage Input 2 of the connected motion sensor to connect one or more parallel 1 command auxiliary axial modules (eg: GW 10 677) and configure them to send a generic command or Zigbee status to the system (eg: on/off, scenario).

EXPLANATION

The two inputs of the connected motion sensor can be connected to N.O. contacts (eg: auxiliary axial modules, traditional push-buttons and switches, sensors) and used, **independently of each other**, to replicate the local load command or to send generic commands or Zigbee states to the system (eg: on/off, scenarios). Their functionality is set up during the configuration phase.

CONNECTED THERMOSTAT

Room thermostat with white LED backlit display and 5A relay output (AC1) to control heating/cooling systems and manual temperature regulation. Two-point (ON/OFF) and Proportional Integral (PWM) control algorithms. Remotely access thermostat functions and create/manage daily/weekly profiles via the app. The thermostat is equipped with integrated temperature and humidity sensors and Zigbee technology radio module. It is available in ChoruSmart 2-module version for flush-mounting.

WIRING DIAGRAMS

Wiring example of the connected thermostat to control the zone solenoid valve via the relay output and a dehumidification system via a connected 1-channel on/off actuator.

HOME GATEWAY

Multi-protocol gateway for managing connected devices in the system via the cloud and Home Gateway app. The app also enables programming and configuration of the system. The Home Gateway communicates with connected devices via Zigbee wireless protocols and WiFi. Bluetooth (BLE) connection is limited just to the device configuration phase via smartphone. It is available in ChoruSmart 2-module version for flush-mounting.

GW 1x 840

EGO SMART PLATES

Smart version of the EGO plate family, equipped with intelligent display for showing texts, scrolling signal and alarm messages, fixed and dynamic icons for immediate association of the functions of the hosted control devices. The plates are equipped with proximity sensor and light guide with perimeter LEDs for internal and external lighting, which can be used both for signalling and as a courtesy light.

TWICE AS MANY FUNCTIONS IN THE SAME SPACE: THE SHIFT FUNCTION

Using the **EGO SMART** plate in combination with **connected axial control devices doubles** their control capacity thanks to the **SHIFT** function.

The function is activated by obscuring the proximity sensor for a few seconds, using the hand, and has a predetermined duration during which axial devices take on new features - **extended functions**. At the end of the time lapse or by covering the proximity sensor again, the devices return to their **original functions**.

POWER SUPPLY FOR THE EGO SMART PLATE

The EGO SMART plates must be powered by an external device, typically one of the connected modules housed in the same box where the plate is installed, through a flexible connection cable.

The connected devices capable of powering the plates are as follows:

- **GW A1 201, GW A1 202** connected axial 2-way switch module
- **GW A1 231, GW A1 232** connected axial roller-shutter module
- **GW A1 241, GW A1 242** 2 commands connected axial module
- **GW 1x 826** connected 1-channel actuator

In the absence of one of these devices, GEWISS provides a specific power supply and connection unit to be placed behind the plate. Equipped with a Zigbee technology radio module. Available in a retractable version, housed in ChoruSmart 1-module blanking modules (GW 1x 750) for flush-mounting.

GW A1 700

TERMINAL DESCRIPTION

Connector used for the connection to the EGO SMART plate

— L Line
— N Neutral

MULTIFUNCTIONALITY OF CONNECTED DEVICES

Connected controls are smart devices with innovative features: in addition to their original function they are able to add new functions and control points to the home system, without requiring additional installation spaces. In addition, when used in an EGO SMART plate, with **SHIFT mode** activated, the functionality of the controls doubles.

Example of multi-functionality of the connected roller-shutter module: 5 controls in 1

Each connected control unit can perform many more functions than any other:

① Control the associated load
(eg: lights, dimmers, blinds, etc.).

② ③ Control additional functions to the original functions (with EGO SMART plate and SHIFT mode activated).

④ ⑤ Replicate the command or send generic wireless commands to the system (eg: scenarios), thanks to the option of connecting up to 2 traditional control units (non-smart).

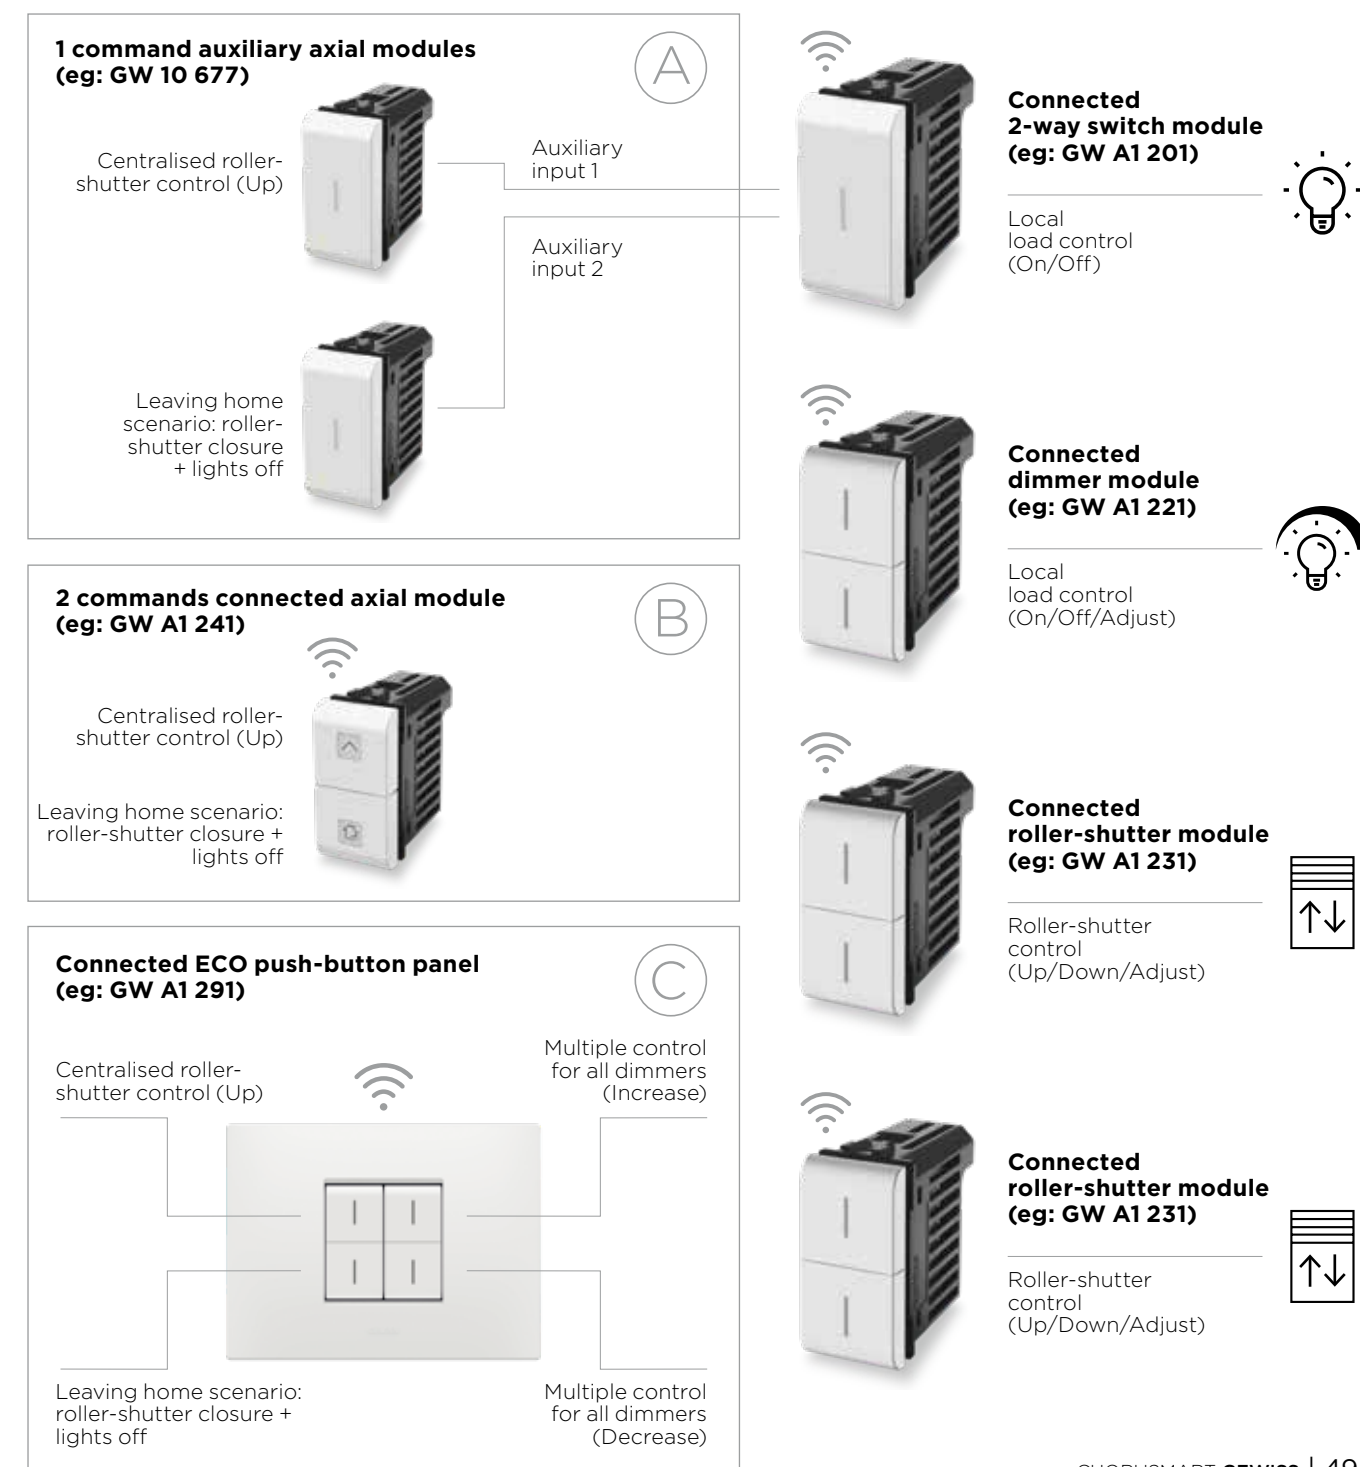

CENTRALISED CONTROL: LIGHTS, BLINDS AND SCENARIOS

Examples of centralising the Off control of the lights and Up/Down control of the shutters/venetian blinds, making use of three different applicable solutions:

- (A) with traditional (non-smart) control units wired to the auxiliary inputs of a connected device already in the system
- (B) with 2 commands connected axial module
- (C) with ECO push-button panels

The three solutions complement each other and can coexist in the same system to offer greater installation flexibility.

TECHNICAL ALARMS

WIRELESS SENSORS (ZIGBEE)

Example of connecting wireless sensors to detect water leaks, using a connected device to control, via the on-board contact, the apartment water shutoff solenoid valve.

The alarm is signalled on the EGO SMART plates and the app (push notification).

For applications that do not require solenoid valve control but only alarm notifications via the app or on the display of the EGO SMART plates, no actuator is required: alarm signalling is directly managed and captured by the Home Gateway. Similarly, the GWA1512 can be used to manage smoke alarm signalling.

WIRED SENSORS

Example of connecting a wired sensor to detect gas leaks. The sensor output contact is captured by the system through the auxiliary input of a connected device. In the example the same output contact is also used to control the apartment gas shutoff solenoid valve.

The alarm is signalled on the EGO SMART plates and the app (push notification).

WIRELESS SENSORS (ZIGBEE) + WIRED SENSORS

Example of connecting wireless sensors for smoke leak detection and a wired sensor for gas leak detection. Following a smoke alarm, a ventilation system is activated using a connected actuator, while following a gas alarm, the contact on the sensor directly controls the solenoid valve to shut off the apartment gas.

Smoke and gas leak detection is reported independently on the EGO SMART plates and on the App (push notification).

OPEN WINDOW SIGNALLING WHEN LEAVING HOME

When the leaving home scenario is run, the EGO SMART plate indicates the user the presence of any open windows. For this purpose it is necessary to use the connected sensor GWA1513 to detect open windows, for each window the user wants to monitor. To end the alarm it's enough to close the window and cover the proximity sensor of the EGO SMART plate.

BENEFITS FOR YOU AND YOUR CUSTOMER

Smart Gateway is at the heart of the Home&Building Pro system: developed on a cloud platform -where all information from the home and the internet converge- it is the centre of an ecosystem where different solutions, including third-party solutions, co-exist, harmoniously communicating with each other to guarantee well-being throughout the home.

SECURITY

Security cameras image display, technical alarms signalling (gas, smoke, water leaks, etc.), presence detection and control of the status (open/closed) of the entrances (doors and windows).

CONSUMPTION MANAGEMENT AND TEMPERATURE CONTROL

View and monitor current consumption and electricity, water and gas histories, with the appropriate use of consumption meters applied to areas of interest. Zoned temperature control according to weekly profiles via room thermostats, display and humidity control, graphic monitoring over time of temperatures, humidity and boiler ignition status.

HOME&BUILDING PRO

Advanced automation solutions

The KNX protocol BUS system is the ideal solution for both residential and offices. It is a control system compliant with the European standard EN50090 for data transmission and management **in building automation**. The **KNX bus** is an open solution and as such guarantees interoperability between products from different manufacturers. It also guarantees **reliability, flexibility and rapid installation**. The system can be managed locally or remotely with the Smart Gateway app.

ADVANCED FUNCTIONS

Set up and implementation of complex scenarios, time schedules (eg: garden irrigation), historical consumption analysis, logic and notifications of alarms or system anomalies directly on the app and/or by sending emails.

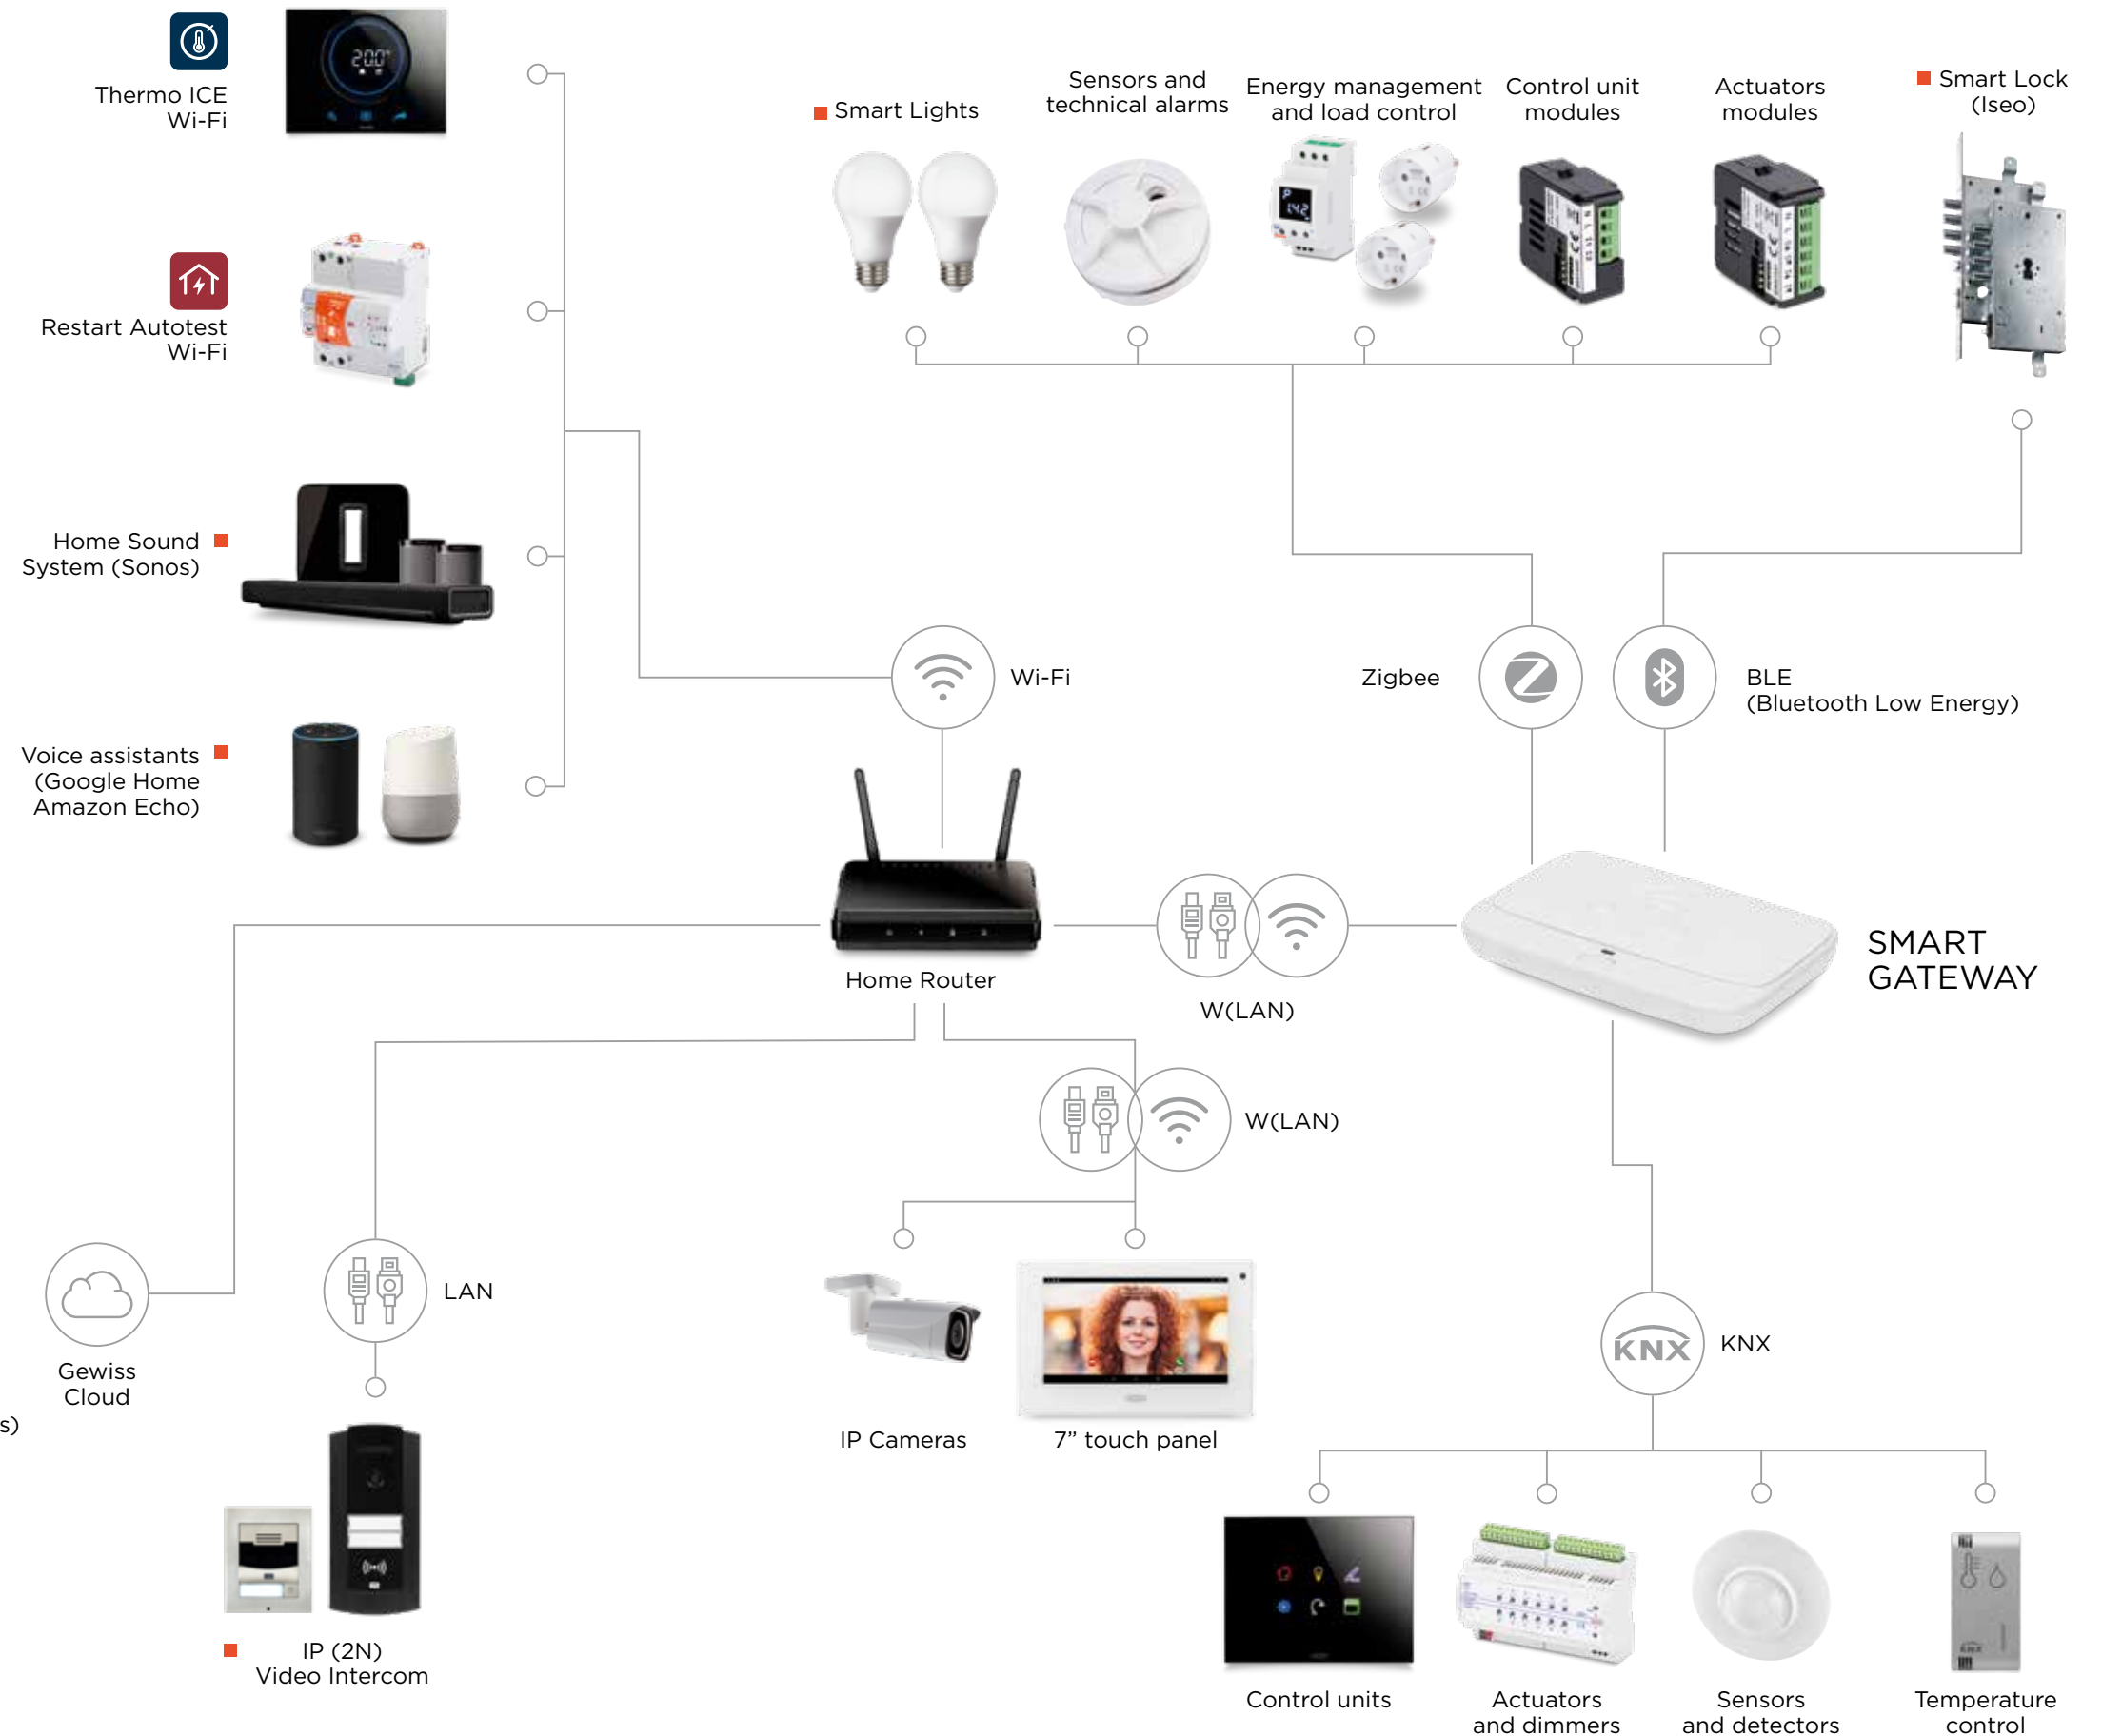

SIMPLE AND OPEN TO INTEGRATION

Smart Gateway setup is **easy and intuitive**: it runs directly on the cloud with simple drag-and-drop operations. The system is also **open to integrations with third-party systems** (2N video intercom, ISEO smart lock and SONOS entertainment) and popular cloud platforms (Google, Amazon and IFTTT).

KNX SYSTEM ARCHITECTURE

Intelligence is connection. Smart Gateway is a powerful tool for building environment management and automation logics, collecting data from home inputs and sensors, and sending commands to actuators. It has never been easier to communicate with Cloud applications, transfer data from the network of connected devices - KNX, Zigbee, BLE, Wi-Fi, IP - to devices and client apps and to exchange information between devices with different communication protocols. Smart Gateway connects to a power outlet and, wirelessly, to your home's router.

GATEWAY KNX/DALI2 64/16 IP ADVANCED

The new interface can control **up to 64 lamps**, divided into 16 groups, managed with **DALI protocol**, via the KNX bus and offers the possibility to connect up to 8 DALI motion detectors or DALI light sensors. In addition to controlling all the standard operating devices, the Gateway also enables the operation of **emergency lighting** via stand-alone lamps (EN 62386-202). The device has an **RJ45 LAN port** for configuration and/or IP access and provides power to the DALI line. Category 1 equipment (according to EN 62386-103).

The interface is DIN rail mountable, with a footprint size of 4 DIN modules. The connection to the KNX bus is made via screwless push-in bus terminal.

FAN-COIL ACTUATORS

Home&Building Pro solutions for controlling building air conditioning functions, which are enhanced with **KNX fan-coil actuators** and Thermo ICE KNX thermostats, ensure **comfort and energy savings** in any environment, from office to residential. Also remotely, with the Smart Gateway app.

EXCEPTIONALLY VERSATILE

KNX fan-coil actuators manage 2- and 4-pipe heating/cooling systems and can control **0-10V proportional valves**, 2- or 3-point valves and **fans with 0-10V proportional output** or up to 3 speed levels.

FEATURE-RICH

KNX fan-coil actuators manage the system independently thanks to the built-in regulator – **room thermostat function** – or with external control. The devices are equipped with inputs for **monitoring condensation**, **window contact** or the **temperature sensor**, and an additional relay that can be used as a **switching output**.

PRESENCE DETECTORS AND DIMMER ACTUATORS

Home&Building Pro solutions for building automation control are extended with the new **KNX presence detectors** and **KNX dimmer actuators**, enabling significant **energy savings** and a high level of **comfort** in every setting, from office to industrial. Also remotely, with the Smart Gateway app.

ENERGY SAVING

KNX presence and motion detectors reduce energy wastage by properly managing common area lighting – via constant brightness control – and detecting passage and presence of people. The sensors can be installed in a ceiling at heights between 2 and 6 meters.

ADVANCED FUNCTIONS

KNX universal dimmers automatically recognise the type of light load connected and select the most suitable adjustment strategy – “trailing edge” or “leading edge” phase cutting. They enable configuration of the maximum adjustment values, recognise critical situations – overheating, abnormal energy consumption – and have an elapsed time meter. Finally, they can control fans up to 100W.

RECESSED ACTUATORS

The image displays four different models of connected actuators, arranged in two rows. The top row features three actuators labeled GW A1 521, GW A1 522, and GW A1 523, which are designed for generic loads. The bottom row features one actuator labeled GW A1 531, designed for roller shutters. Each actuator is a black rectangular unit with a white label and green terminal blocks on the right side. The labels provide technical specifications for each model.

ICE TOUCH PLATES

GLASS

GW 16 955 CB

ICE TOUCH - WHITE

Code	Description	For support codes	Pack Carton
GW 16 955 CB	6 touch areas	GW16803, GW16803N	1

CHARACTERISTICS: glossy finish. The plate is to be used in combination with the touch modules (switch module GW10922, roller shutter module GW10921, dimmer module GW10923, 1 command auxiliary module GW10924, 2 commands auxiliary module GW10925).
NOTES: the symbols displayed in the image are purely indicative and may be customised using the icons supplied with the touch plate.The code of the plate is unique and independent of the number of icons used.

GW 16 955 CL

ICE TOUCH - NATURAL BEIGE

Code	Description	For support codes	Pack Carton
GW 16 955 CL	6 touch areas	GW16803, GW16803N	1

CHARACTERISTICS: glossy finish. The plate is to be used in combination with the touch modules (switch module GW10922, roller shutter module GW10921, dimmer module GW10923, 1 command auxiliary module GW10924, 2 commands auxiliary module GW10925).
NOTES: the symbols displayed in the image are purely indicative and may be customised using the icons supplied with the touch plate.The code of the plate is unique and independent of the number of icons used.

GW 16 955 CN

ICE TOUCH - BLACK

Code	Description	For support codes	Pack Carton
GW 16 955 CN	6 touch areas	GW16803, GW16803N	1

CHARACTERISTICS: glossy finish. The plate is to be used in combination with the touch modules (switch module GW10922, roller shutter module GW10921, dimmer module GW10923, 1 command auxiliary module GW10924, 2 commands auxiliary module GW10925).
NOTES: the symbols displayed in the image are purely indicative and may be customised using the icons supplied with the touch plate.The code of the plate is unique and independent of the number of icons used.

GW 16 955 CT

ICE TOUCH - TITANIUM

Code	Description	For support codes	Pack Carton
GW 16 955 CT	6 touch areas	GW16803, GW16803N	1

CHARACTERISTICS: glossy finish. The plate is to be used in combination with the touch modules (switch module GW10922, roller shutter module GW10921, dimmer module GW10923, 1 command auxiliary module GW10924, 2 commands auxiliary module GW10925).
NOTES: the symbols displayed in the image are purely indicative and may be customised using the icons supplied with the touch plate.The code of the plate is unique and independent of the number of icons used.

COMMAND

COMMAND DEVICES - AXIAL - SCREW TERMINALS

GW 10 671

AXIAL SWITCH MODULES - EVO

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 671	100 - 240 V ac - 50/60 Hz	1 NO 5A (ACT) 240 V ac	1	1/12
GW 10 672	100 - 240 V ac - 50/60 Hz	1 NO 5A (ACT) 240 V ac	2	1/6

CHARACTERISTICS: control device for 1 luminaire via On/Off output live contact. Suitable for controlling incandescent and halogen lamps(240Vac): 1000W, LED lamps (240Vac): 100W, fluorescent lamps (240Vac): 120W, halogen lamps controlled by electronic transformers (240Vac): 250VA. Local push-button with axial activation for controlling the lamp connected to the device. Equipped with 1 input to replicate local control of the load via auxiliary module GW10677, GW10678 or NO-type push-buttons and 1 input for the centralised OFF function.
APPLICATIONS: bistable, monostable and timed control of the load. Centralisation function (OFF) via the dedicated input, option to switch on the load via additional auxiliary axial modules or NO-type push-buttons. On-board blue LED can be set to OFF, localisation or signalling of the connected load status.
NOTES: the devices must be completed with a front button key: GW10671 must be completed with button keys GW1x551S or GW1x555S; GW10672 must be completed with button keys GW1x552S or GW1x556S.

GW 10 673

AXIAL DIMMER MODULES - EVO

Code	Power supply	Halogen load	Inductive load	LED load	No. modules	Pack Carton
GW 10 673	100 - 240 V ac - 50/60 Hz	4 - 150 W	4 - 150 VA	4 - 150 W	1	1/12
GW 10 674	100 - 240 V ac - 50/60 Hz	4 - 150 W	4 - 150 VA	4 - 150 W	2	1/6

CHARACTERISTICS: trailing edge load driving mode (max. 10 lamps). Two local push-buttons with axial activation for dimming the connected load. Equipped with 2 inputs to replicate local control of the load via the auxiliary modules GW10679, GW10680 or NO-type push-buttons or to create the centralisation function.
APPLICATIONS: control of the dimmable load connected to the devices. Using the dedicated inputs, activation of the load may be added via additional auxiliary axial modules or NO-type push-buttons, or, via programming, it is possible to set the inputs for centralisation functions (OFF). The on-board blue LEDs can be set for OFF, localisation or signalling of the connected load.
NOTES: to avoid overheating, side-by-side installation of several dimmers in a single container is not permitted; insert a blanking module between two dimmers. If installing two dimmers in the same box, the maximum loads that can be controlled by each dimmer must be reduced by 50%. The devices must be completed by a front button key: GW10673 must be completed with button keys GW1x553S or GW1x557S; GW10674 must be completed with button keys GW1x554S or GW1x558S.

GW 10 675

AXIAL ROLLER SHUTTER MODULES - EVO

Code	Power supply	Max current supplied	No. modules	Pack Carton
GW 10 675	100 - 240 V ac - 50/60 Hz	2.3 A 240 V ac (according to IEC 60669-2-1)	1	1/12
GW 10 676	100 - 240 V ac - 50/60 Hz	2.3 A 240 V ac (according to IEC 60669-2-1)	2	1/6

CHARACTERISTICS: devices for controlling a motor to operate roller shutters, curtains, venetian blinds, roller blinds, etc., via 2 interlocked output contacts. Two local buttons with axial activation allow the motor connected to the device to be controlled. Equipped with 2 inputs to replicate local control of the motor via auxiliary modules GW10679, GW10680 or NO-type up/down push-buttons or to create the centralisation function.
APPLICATIONS: control of the motor connected to the devices. Using the dedicated inputs, the shutter can be operated via the auxiliary axial modules or NO-type up/down push-buttons, or, via programming, it is possible to set the inputs for centralisation functions (Up/Down). The devices are equipped with blue LEDs, which can be configured for the night-time localisation or signalling of the movement of the roller shutter/venetian blinds.
NOTES: the devices must be completed with a front button key: GW10675 must be completed with button keys GW1x553S or GW1x557S; GW10676 must be completed with button keys GW1x554S or GW1x558S.

GW 10 677

1 COMMAND AUXILIARY AXIAL MODULES

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 677	100 - 240 V ac - 50/60 Hz	1 NO 1A (ACT) 240 V ac	1	1/12
GW 10 678	100 - 240 V ac - 50/60 Hz	1 NO 1A (ACT) 240 V ac	2	1/6

CHARACTERISTICS: auxiliary controls to use in combination with EVO switch modules. The devices are equipped with blue LEDs, for localisation or to display the status of the load.
APPLICATIONS: connected to the local inputs of the EVO axial controls, they enable the replication of local load control or management of centralised controls.
NOTES: the devices must be completed with a front button key: GW10677 must be completed with button keys GW1x551S or GW1x555S; GW10678 must be completed with button keys GW1x552S or GW1x556S.

GW 10 679

GW 14 551 S

2 COMMANDS AUXILIARY AXIAL MODULES

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 679	100 - 240 V ac - 50/60 Hz	2 NO 1A (ACI) 240 V ac	1	1/12
GW 10 680	100 - 240 V ac - 50/60 Hz	2 NO 1A (ACI) 240 V ac	2	1/6

CHARACTERISTICS: auxiliary controls to use in combination with EVO dimmer and roller shutter modules. The devices are equipped with blue LEDs, for localisation or to display the status of the load.
APPLICATIONS: connected to the local inputs of the EVO axial controls, they enable the replication of local load control or management of centralised controls.
NOTES: the devices must be completed with a front button key: GW10679 must be completed with button keys GW1x553S or GW1x557S; GW10680 must be completed with button keys GW1x554S or GW1x558S.

TOUCH COMMANDS MODULES

GW 10 922

TOUCH SWITCH MODULE

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 922	100 - 240 V ac - 50/60 Hz	1 NO 5A (ACI) 240 V ac	1	1/12

CHARACTERISTICS: control device for 1 luminaire via On/Off output contact. Suitable for controlling incandescent and halogen lamps(240Vac): 1000W, LED lamps (240Vac): 100W, fluorescent lamps (240Vac): 120W, halogen lamps controlled by electronic transformers (240Vac): 250VA. Equipped with 1 input to replicate local control of the load via 1 command auxiliary touch modules GW10924, NO-type push-buttons and 1 input for the centralised OFF function. The device is equipped with blue LED for localisation, with two levels of light intensity, and a buzzer that can be set on ON or OFF. Customizable functions thanks to the icons included in the same package as the ICE touch plates.
APPLICATIONS: bistable, monostable and timed control of the load. Centralisation function (OFF) via the dedicated input.
NOTES: to be completed with ICE touch plates (cod. GW16955CB, GW16955CL, GW16955CN, GW16955CT).

GW 10 923

TOUCH DIMMER MODULE

Code	Power supply	Halogen load	Inductive load	LED load	No. modules	Pack Carton
GW 10 923	100 - 240 V ac - 50/60 Hz	4 - 150 W	4 - 150 VA	4 - 150 W	1	1/12

CHARACTERISTICS: trailing edge load driving mode (max. 10 lamps). Two local touch areas for dimming the connected load. Equipped with 2 inputs to replicate local control of the load via 2 commands auxiliary touch modules GW10925, NO-type push-buttons or to create the centralisation function (OFF). The device is equipped with blue LED for localisation, with two adjustable levels of light intensity, and a buzzer that can be set on ON or OFF. Customizable functions thanks to the icons included in the same package as the ICE touch plates.

APPLICATIONS: control of the dimmable load connected to the devices. Centralisation function (OFF) via the dedicated inputs.

NOTES: to avoid overheating, side-by-side installation of several dimmers in a single container is not permitted; insert a blanking module between two dimmers. If installing two dimmers in the same box, the maximum loads that can be controlled by each dimmer must be reduced by 50%. To be completed with ICE touch plates (cod. GW16955CB, GW16955CL, GW16955CN, GW16955CT).

GW 10 921

TOUCH ROLLER SHUTTER MODULE

Code	Power supply	Max current supplied	No. modules	Pack Carton
GW 10 921	100 - 240 V ac - 50/60 Hz	2.3 A 240 V ac (according to IEC 60669-2-1)	1	1/12

CHARACTERISTICS: device for controlling a motor to operate roller shutters, curtains, venetian blinds, roller blinds, etc., via 2 interlocked output contacts. Two local touch areas for controlling the motor connected to the device to be controlled. Equipped with 2 inputs to replicate local control of the motor via 2 commands auxiliary touch modules GW10925, NO-type up/down push-buttons or to create the centralisation function (Up/Down). The device is equipped with blue LED for localisation, with two adjustable levels of light intensity, and a buzzer that can be set on ON or OFF. Customizable functions thanks to the icons included in the same package as the ICE touch plates.

APPLICATIONS: control of the motor connected to the devices. Centralisation function (Up/Down) via the dedicated inputs.

NOTES: to be completed with ICE touch plates (cod. GW16955CB, GW16955CL, GW16955CN, GW16955CT).

GW 10 924

1 COMMAND AUXILIARY TOUCH MODULE

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 924	100 - 240 V ac - 50/60 Hz	1 NO 1A (AC1) 240 V ac	1	1/12

CHARACTERISTICS: suitable to control the module GW10922. The device is equipped with blue LED for localisation, with two adjustable levels of light intensity, and a buzzer that can be set on ON or OFF. Customizable functions thanks to the icons included in the same package as the ICE touch plates.

NOTES: to be completed with ICE touch plates (cod. GW16955CB, GW16955CL, GW16955CN, GW16955CT).

GW 10 925

2 COMMANDS AUXILIARY TOUCH MODULE

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 925	100 - 240 V ac - 50/60 Hz	2 NO 1A (AC1) 240 V ac	1	1/12

CHARACTERISTICS: suitable to control the modules GW10921 and GW10923. The device is equipped with blue LED for localisation, with two adjustable levels of light intensity, and a buzzer that can be set on ON or OFF. Customizable functions thanks to the icons included in the same package as the ICE touch plates.

NOTES: to be completed with ICE touch plates (cod. GW16955CB, GW16955CL, GW16955CN, GW16955CT).

MOVEMENT DETECTORS

GW 14 594

MOVEMENT DETECTORS

Code	Colour	Power supply	Output contacts	Pack Carton
GW 10 594	Glossy white	230 V ac - 50/60 Hz	1NO 3 A (AC1) 230 V ac	1/4
GW 15 594	Satin white	230 V ac - 50/60 Hz	1NO 3 A (AC1) 230 V ac	1/4
GW 13 594	Satin natural beige	230 V ac - 50/60 Hz	1NO 3 A (AC1) 230 V ac	1/4
GW 12 594	Satin black	230 V ac - 50/60 Hz	1NO 3 A (AC1) 230 V ac	1/4
GW 14 594	Glossy titanium	230 V ac - 50/60 Hz	1NO 3 A (AC1) 230 V ac	1/4

CHARACTERISTICS: adjustment of the intervention duration 15 sec - 10 min. Twilight threshold adjustment min. 10 lux - max. inhibited. Suitable for controlling halogen lamps/resistive loads: 700 W; incandescent lamps: 450 W; low-voltage halogen lamps (12 V) driven by toroidal or electronic transformers: 450 W; uncompensated fluorescent lamps: 2 x 58 W; motors and geared motors: 400 VA; LED loads: 60W (max. 10 lamps). Not suitable for compensated fluorescent lamps, for discharge lamps and for any load not indicated that must be controlled using a support relay.

APPLICATIONS: energy savings: command of the lighting of rooms and areas only when people pass through. Comfort and safety: automatic command of circuits without needing to activate switches.

NOTES: do not install the product in watertight plates: the lid membrane does not allow the detector lens to work correctly.

GW 10 595

CEILING-MOUNTED PRESENCE DETECTOR

Code	Power supply	Installation height (m)	Light sensor	Dimensions HxØ (mm)	Pack Carton
GW 10 595	220/240 V ac - 50/60 Hz	From 2.2 to 6	< 3 ÷ 2000 Lux	44x111.5	1

CHARACTERISTICS: presence sensor, detection range: 360° circular; can be installed via fixing springs in surface-mounted or flush-mounted box. Suitable for controlling incandescent/halogen lamps: 1000 W; LED lamps: 200 W (4 / 23 W - max. 8 lamps).

NOTES: equipped with surface-mounting box able to extend the IP rating of the sensor from IP20 to IP44.

DATA

USB CHARGERS

GW 14 449

USB CHARGERS FOR ELECTRONIC DEVICES

Code	Colour	Power supply	Output voltage	Max current supplied	Type of port	No. modules	Pack Carton
GW 10 447	Glossy white	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+A	1	1/10
GW 15 447	Satin white	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+A	1	1/10
GW 13 447	Satin natural beige	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+A	1	1/10
GW 12 447	Satin black	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+A	1	1/10
GW 14 447	Glossy titanium	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+A	1	1/10
GW 10 449	Glossy white	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+C	1	1/10
GW 15 449	Satin white	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+C	1	1/10
GW 13 449	Satin natural beige	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+C	1	1/10
GW 12 449	Satin black	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+C	1	1/10
GW 14 449	Glossy titanium	100 - 240 V ac - 50/60 Hz	5 V dc	3 A	A+C	1	1/10

CHARACTERISTICS: suitable for recharging a single electronic device (e.g. tablet) or two devices simultaneously (e.g. a tablet andsmartphone). The division of the current delivered to the two outputs depends on the state of charge of the connected devices.

ENERGY, TEMPERATURE AND COMFORT MANAGEMENT

DIMMER

GW 14 575

UNIVERSAL ROTATING ELECTRONIC REGULATORS

Code	Colour	Power supply	No. modules	Pack Carton
GW 10 575	Glossy white	230 V ac - 50 Hz	1	1/12
GW 15 575	Satin white	230 V ac - 50 Hz	1	1/12
GW 13 575	Satin natural beige	230 V ac - 50 Hz	1	1/12
GW 12 575	Satin black	230 V ac - 50 Hz	1	1/12
GW 14 575	Glossy titanium	230 V ac - 50 Hz	1	1/12

CHARACTERISTICS: suitable for dimming incandescent and halogen lamps (230 V ac): 20-160 W; low-voltage halogen lamps (12 V ac) with electronic transformers: 40-160 W and low-voltage LED lamps (12 V ac) with electronic transformers: 4-110 W. Rotary control with 2-way switch. Equipped with amber-coloured signalling LED. Can be operated without neutral connection.

NOTES: the installation of more than one dimmer side-by-side in a single container is not permitted. To avoid overheating, insert ablanking module between two dimmers. If installing two dimmers in the same box, the maximum loads that can be controlled by each dimmer must be reduced by 50%.

ACCESSORIES FOR ONE, GEO, EGO, LUX AND ICE PLATES

SUPPORTS FOR RECTANGULAR BOXES

GW 16 807 N

ITALIAN STANDARD SUPPORTS FOR ONE, GEO, EGO, LUX AND ICE PLATES

<div><div>HF</div><div>HALOGEN FREE</div></div>				
Code	Description	Fixing	Characteristics	Pack Carton
GW 16 802	2 modules	2 screws (included)	Halogen free	12/120
GW 16 803	3 modules	2 screws (included)	Halogen free	12/240
GW 16 804	4 modules	2 screws (included)	Halogen free	12/120
GW 16 806	6 modules	4 screws (included)	Halogen free	12/72
GW 16 807 N	7 modules	2 screws (included)	Halogen free	12/72
GW 16 808	4+4 modules	4 screws (included)	Halogen free	12/48
GW 16 812	6+6 modules	4 screws (included)	Halogen free	12/48

CHARACTERISTICS: GW16802 is pre-arranged for both 3-module rectangular (centre distance 83.5 mm) boxes and round/square boxes (centre distance 60 mm) equipped with fixing columns. To be completed with 2-module italian standard plates.

NOTES: GW16808 and GW16812 can be used in combination with ONE plates (white, satin white, natural beige, satin black or titanium). GW16807N to be used with EGO plates.

FRENCH STANDARD SUPPORTS

<div><div>HF</div><div>HALOGEN FREE</div></div>				
Code	Description	Fixing	Characteristics	Pack Carton
GW 16 824	4 modules	For screws (not incl.) horiz. centre dist. 57 mm	Halogen free	12/60
GW 16 825	6 modules	For screws (not incl.) horiz. centre dist. 2x57 mm	Halogen free	12/48

CHARACTERISTICS: supports pre-arranged for fixing on French standard rectangular boxes.

NOTES: GW16824 to be used with ChoruSmart 4-module plates. GW16825 to be used with ChoruSmart 6-module plates.

SUPPORTS FOR ROUND AND SQUARE BOXES

GW 16 822

INTERNATIONAL STANDARD SUPPORTS

<div><div>HF</div><div>HALOGEN FREE</div></div>				
Code	Description	Fixing	Characteristics	Pack Carton
GW 16 821	2 modules	With fixing clutches	Halogen free	12/120
GW 16 822	2 modules	For screws (not included)	Halogen free	20/120
GW 16 823	2 modules	With long fixing clutches	Halogen free	12/120

CHARACTERISTICS: GW16821 and GW16823 are provided with fixing clutches for installation on round boxes.

NOTES: GW16821 and GW16823 can be installed on single round boxes or in vertical array.

PROTECTIVE COVERS FOR PAINTING

GW 16 873

PROTECTIVE COVERS FOR PAINTING FOR ITALIAN STANDARD SUPPORTS				
Code	Description	Suitable for supports	Colour	Pack Carton
GW 16 873	3 modules	GW16802, GW16803	Transparent	120/480
GW 16 874	4 modules	GW16804	Transparent	60/240
GW 16 876	6 modules	GW16806	Transparent	60/240
GW 16 877 N	7 modules	GW16807N	Transparent	60/240

CHARACTERISTICS: total protection during painting and finishing operations.

NOTES: snap-in mounting to facilitate assembly and removal operations.

GW 16 871

PROTECTIVE COVERS FOR PAINTING FOR INTERNATIONAL STANDARD SUPPORTS				
Code	Description	Suitable for supports	Colour	Pack Carton
GW 16 871	2 modules	GW16821, GW16822, GW16823	Transparent	60/480

CHARACTERISTICS: total protection during painting and finishing operations.

NOTES: snap-in mounting to facilitate assembly and removal operations.

EGO SMART PLATES

PAINTED TECHNOPOLYMER

GW 16 003 SPW

GW 16 003 SCY

GW 16 003 SNB

GW 16 003 SDS

EGO SMART PLATES - SATIN WHITE

Code	Description	For support codes	Pack Carton
GW 16 003 SPW	3 modules	GW16803N	1
GW 16 004 SPW	4 modules	GW16804N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

EGO SMART PLATES - CLAY

Code	Description	For support codes	Pack Carton
GW 16 003 SCY	3 modules	GW16803N	1
GW 16 004 SCY	4 modules	GW16804N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

EGO SMART PLATES - NATURAL BEIGE

Code	Description	For support codes	Pack Carton
GW 16 003 SNB	3 modules	GW16803N	1
GW 16 004 SNB	4 modules	GW16804N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

EGO SMART PLATES - DARK SAND

Code	Description	For support codes	Pack Carton
GW 16 003 SDS	3 modules	GW16803N	1
GW 16 004 SDS	4 modules	GW16804N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

GW 16 003 SDB

GW 16 003 SGR

GW 16 003 SBR

GW 16 003 SST

GW 16 003 SCS

EGO SMART PLATES - SATIN BLACK

Code	Description	For support codes	Pack Carton
GW 16 003 SDB	3 modules	GW16803N	1
GW 16 004 SDB	4 modules	GW16804N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

EGO SMART PLATES - MAGNETIC GRAY

Code	Description	For support codes	Pack Carton
GW 16 003 SGR	3 modules	GW16803N	1
GW 16 004 SGR	4 modules	GW16804N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

EGO SMART PLATES - LIGHT BRONZE

Code	Description	For support codes	Pack Carton
GW 16 003 SBR	3 modules	GW16803N	1
GW 16 004 SBR	4 modules	GW16804N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

EGO SMART PLATES - STEEL

Code	Description	For support codes	Pack Carton
GW 16 003 SST	3 modules	GW16803N	1
GW 16 004 SST	4 modules	GW16804N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

EGO SMART PLATES - SOFT COPPER

Code	Description	For support codes	Pack Carton
GW 16 003 SCS	3 modules	GW16803N	1
GW 16 004 SCS	4 modules	GW16804N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

GW 16 003 SSG

GW 16 003 SCP

GW 16 003 SBS

EGO SMART PLATES - GOLD

Code	Description	For support codes	Pack Carton
GW 16 003 SSG	3 modules	GW16803N	1
GW 16 004 SSG	4 modules	GW16804N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

EGO SMART PLATES - COPPER

Code	Description	For support codes	Pack Carton
GW 16 003 SCP	3 modules	GW16803N	1
GW 16 004 SCP	4 modules	GW16804N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

EGO SMART PLATES - BROWN SHADE

Code	Description	For support codes	Pack Carton
GW 16 003 SBS	3 modules	GW16803N	1
GW 16 004 SBS	4 modules	GW16804N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

EGO SMART INTERNATIONAL PLATES

PAINTED TECHNOPOLYMER

GW 16 022 SPW

GW 16 022 SCY

GW 16 022 SNB

GW 16 022 SDS

EGO SMART INTERNATIONAL PLATES - SATIN WHITE

Code	Description	For support codes	Pack Carton
GW 16 022 SPW	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

EGO SMART INTERNATIONAL PLATES - CLAY

Code	Description	For support codes	Pack Carton
GW 16 022 SCY	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

EGO SMART INTERNATIONAL PLATES - NATURAL BEIGE

Code	Description	For support codes	Pack Carton
GW 16 022 SNB	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

EGO SMART INTERNATIONAL PLATES - DARK SAND

Code	Description	For support codes	Pack Carton
GW 16 022 SDS	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

GW 16 022 SDB

EGO SMART INTERNATIONAL PLATES - SATIN BLACK

Code	Description	For support codes	Pack Carton
GW 16 022 SDB	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

GW 16 022 SGR

EGO SMART INTERNATIONAL PLATES - MAGNETIC GRAY

Code	Description	For support codes	Pack Carton
GW 16 022 SGR	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

GW 16 022 SBR

EGO SMART INTERNATIONAL PLATES - LIGHT BRONZE

Code	Description	For support codes	Pack Carton
GW 16 022 SBR	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

GW 16 022 SST

EGO SMART INTERNATIONAL PLATES - STEEL

Code	Description	For support codes	Pack Carton
GW 16 022 SST	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

GW 16 022 SCS

EGO SMART INTERNATIONAL PLATES - SOFT COPPER

Code	Description	For support codes	Pack Carton
GW 16 022 SCS	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

GW 16 022 SSG

EGO SMART INTERNATIONAL PLATES - GOLD

Code	Description	For support codes	Pack Carton
GW 16 022 SSG	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

GW 16 022 SCP

EGO SMART INTERNATIONAL PLATES - COPPER

Code	Description	For support codes	Pack Carton
GW 16 022 SCP	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

GW 16 022 SBS

EGO SMART INTERNATIONAL PLATES - BROWN SHADE

Code	Description	For support codes	Pack Carton
GW 16 022 SBS	2 modules	GW16821N, GW16822N	1

CHARACTERISTICS: matt finish, metallic effect. The plate is equipped with a dot-matrix display in the upper section, RGB LED strip (along the external perimeter and within the upper and lower sections) and proximity sensor.

APPLICATIONS: display of the dynamic icons, showing the functions associated with the devices installed inside the plate; signalling of events/alarms in conjunction with message display and/or the RGB LED strip.

NOTES: the plate must be powered via one of the following connected devices, which must be installed within the plate box: GWA1201, GWA1202, GWA1231, GWA1232, GWA1241, GWA1242, GW1x826 or via the dedicated power supply unit GWA1700; the connection cable between the plate and power supply device is included in the same packaging as the plate.

Non-inventory items, for delivery times, please contact your sales rep.

ACCESSORIES FOR EGO SMART PLATES

POWER SUPPLY AND CONNECTION

GW A1 700

POWER AND COMMUNICATION UNIT FOR EGO SMART PLATES - ZIGBEE

Code	Power supply	Pack Carton
GW A1 700	100 - 240 V ac - 50/60 Hz	1/4

CHARACTERISTICS: device for power supply and communication of the EGO SMART plates.
NOTES: the device must be placed in the flush-mounting box where the EGO SMART plate it powers is installed; installable in ChoruSmart supports using the blanking module GW1x750. The connection between the device and the EGO SMART plate must be made using the cable supplied in the EGO SMART packaging.
This device is unnecessary if one of the following devices is already present in the EGO SMART plate box: GWA1201, GWA1202, GWA1231,GWA1232, GWA1241, GWA1242, GW1x826 (any of these devices can power the EGO SMART plate).

SUPPORTS FOR RECTANGULAR BOXES

GW 16 803 N

ITALIAN STANDARD SUPPORTS FOR EGO SMART PLATES

Code	Description	Fixing	Characteristics	Pack Carton
GW 16 803 N	3 modules	2 screws (included)	Halogen free	6/240
GW 16 804 N	4 modules	2 screws (included)	Halogen free	6/120

CHARACTERISTICS: to be used for italian standard 3 and 4 modules EGO SMART plates. The supports are also suitable with all the italian standard 3 and 4 modules ONE, GEO, EGO, LUX and ICE plates.

SUPPORTS FOR ROUND AND SQUARE BOXES

GW 16 822 N

INTERNATIONAL STANDARD SUPPORTS FOR EGO SMART PLATES

Code	Description	Fixing	Characteristics	Pack Carton
GW 16 821 N	2 modules	With fixing clutches	Halogen free	20/120
GW 16 822 N	2 modules	For screws (not included)	Halogen free	20/120

CHARACTERISTICS: GW16821N provided with fixing clutches for installation on round boxes. Special supports for EGO SMART international standard plates; supports are also compatible with the other international standard ONE, GEO, LUX and EGO plates.
NOTES: GW16822N can be installed on single round and square boxes or in horizontal array; GW16821N can be installed on single round boxes.

PROTECTIVE COVERS FOR PAINTING

GW 16 873

PROTECTIVE COVERS FOR PAINTING FOR ITALIAN STANDARD SUPPORTS

Code	Description	Suitable for supports	Colour	Pack Carton
GW 16 873	3 modules	GW16803N	Transparent	120/480
GW 16 874	4 modules	GW16804N	Transparent	60/240

CHARACTERISTICS: total protection during painting and finishing operations.
NOTES: snap-in mounting to facilitate assembly and removal operations.

GW 16 871

PROTECTIVE COVERS FOR PAINTING FOR INTERNATIONAL STANDARD SUPPORTS

Code	Description	Suitable for supports	Colour	Pack Carton
GW 16 871	2 modules	GW16821N, GW16822N	Transparent	60/480

CHARACTERISTICS: total protection during painting and finishing operations.
NOTES: snap-in mounting to facilitate assembly and removal operations.

SUPERVISION

GATEWAY

GW 14 840

HOME GATEWAY

Code	Colour	Power supply	No. modules	Pack Carton
GW 10 840	Glossy white	100 - 240 V ac - 50/60 Hz	2	1/2
GW 15 840	Satin white	100 - 240 V ac - 50/60 Hz	2	1/2
GW 13 840	Satin natural beige	100 - 240 V ac - 50/60 Hz	2	1/2
GW 12 840	Satin black	100 - 240 V ac - 50/60 Hz	2	1/2
GW 14 840	Glossy titanium	100 - 240 V ac - 50/60 Hz	2	1/2

CHARACTERISTICS: multiprotocol gateway provided with Zigbee, WiFi and Bluetooth (BLE) interfaces.
APPLICATIONS: the device enables the configuration, supervision, command and control of the smart home installation via the cloud. Management of functions and access to the system's data is done through a cloud platform, via a dedicated app (smartphone and tablet). System configuration is made through this device using the same app.
NOTES: an Internet connection is required in the system. The Bluetooth connection is only used when configuring devices.

AXIAL COMMAND DEVICES

CONNECTED 2-WAY SWITCH MODULES

GW A1 201

CONNECTED AXIAL 2-WAY SWITCH MODULES - ZIGBEE

Code	Power supply	Output contacts	No. modules	Pack Carton
GW A1 201	100 - 240 V ac - 50/60 Hz	1 NO / NC 2 A (ACI) 240 V ac	1	1/12
GW A1 202	100 - 240 V ac - 50/60 Hz	1 NO / NC 2 A (ACI) 240 V ac	2	1/6

CHARACTERISTICS: control device for 1 load via On/Off output live contact, with consumed power and energy meter (measures sent via Zigbee). Suitable for controlling incandescent and halogen lamps (240Vac): 4-500W, LED lamps (240Vac): 4-100W, fluorescent lamps (240Vac): 4-120W, halogen lamps controlled by electronic transformers (240Vac): 4-250VA. Local push-button with axial activation for controlling the lamp connected to the device. Equipped with 2 inputs (auxiliary axial commands, traditional switches and push-buttons, sensors, etc.) to replicate local control of the lamp or for sending Zigbee commands and status. The devices are equipped with a blue LED for night-time localisation or to display the status of the local load and and are designed to supply power to the EGO SMART plate within which they are housed.
APPLICATIONS: On/Off and timed control of the lamp connected to the devices, via local push-button. The lamp can also be controlled viaZigbee by other devices connected to the network (control unit, scenarios). Using the inputs, it is possible to add local lamp-control points connected to the device, Zigbee controls to other actuators (lamp on/off and dimming control, roller shutter and Venetian blind control, generic load control, scenarios) or send sensor status over the Zigbee network. Using this device in combination with the EGO SMART plate, a further Zigbee control can be sent, activated via the push-button on the device when the SMART plate has the "SHIFT" function enabled.
NOTES: the devices must be completed with a front button key: GWA1201 must be completed with button keys GW1x551S or GW1x555S; GWA1202 must be completed with button keys GW1x552S or GW1x556S.

CONNECTED DIMMER MODULES

GW A1 221

CONNECTED AXIAL DIMMER MODULES - ZIGBEE

Code	Power supply	Power	No. modules	Pack Carton
GW A1 221	100 - 240 V ac - 50/60 Hz	4-150 W 240 V ac	1	1/12
GW A1 222	100 - 240 V ac - 50/60 Hz	4-150 W 240 V ac	2	1/6

CHARACTERISTICS: control devices for 1 dimmable luminaire. Suitable for incandescent, halogen, LED and fluorescent lamps (240Vac): 4-150W, halogen lamps driven by electronic transformers (240Vac): 4-150VA. Trailing edge driving mode. Two local push-buttons with axial activation for dimming lamps connected to the device. Equipped with 2 inputs (auxiliary axial commands, traditional switches and push-buttons, sensors etc.) to replicate local control of the lamp or for sending Zigbee commands and status. The devices are equipped with two blue LEDs, which can be configured for night-time localisation or to display the status of the local load.
APPLICATIONS: control of the dimmable lamps connected to the device via local push-buttons. The lamp can also be controlled viaZigbee by other devices connected to the network (command, scenarios). Using the inputs, it is possible to add local lamp-control points connected to the device, Zigbee controls to other actuators (lamp on/off and dimming control, roller shutter and Venetian blind control, generic load control, scenarios) or send sensor status over the Zigbee network. Using this device in combination with the EGO SMART plate, 2 further Zigbee controls can be sent, activated via the push-buttons on the device when the SMART plate has the "SHIFT" function enabled.
NOTES: the devices must be completed with a front button key: GWA1221 must be completed with button keys GW1x553S or GW1x557S; GWA1222 must be completed with button keys GW1x554S or GW1x558S.

CONNECTED MODULES FOR ROLLER SHUTTERS

GW A1 231

CONNECTED AXIAL ROLLER SHUTTER MODULES - ZIGBEE

Code	Power supply	Output contacts	No. modules	Pack Carton
GW A1 231	100 - 240 V ac - 50/60 Hz	2.3 A 240 V ac (according to IEC 60669-2-1)	1	1/12
GW A1 232	100 - 240 V ac - 50/60 Hz	2.3 A 240 V ac (according to IEC 60669-2-1)	2	1/6

CHARACTERISTICS: devices for controlling a motor for roller shutters, curtains, Venetian blinds, roller blinds, etc., via 2 interlocked output contacts. Two local push-buttons with axial activation enable operation of the motor connected to the device. Equipped with 2 inputs (auxiliary axial commands, traditional switches and push buttons, sensors etc.) to replicate local control of the motor or for sending Zigbee commands and status. The devices are equipped with two blue LEDs for night-time localisation and indication of the motor operation in progress and are designed to supply power to the EGO SMART plate within which they are housed.
APPLICATIONS: control of 1 motor connected to the device via local push-buttons. The motor can also be controlled via Zigbee by other devices connected to the network (up/down commands, scenarios). Using the inputs, it is possible to add local motor-control points connected to the device, Zigbee commands to other actuators (on/off and lamp dimming control, roller shutter and Venetian blind control, generic load control, scenarios) or send sensor status over the Zigbee network. Using this device in combination with the EGO SMART plate, 2 further Zigbee commands can be sent, activated via the push-button on the device when the SMART plate has the "SHIFT" function enabled.
NOTES: the devices must be completed with a front button key: GWA1231 must be completed with button keys GW1x553S or GW1x557S; GWA1232 must be completed with button keys GW1x554S or GW1x558S.

CONNECTED COMMAND MODULES

GW A1 241

2 COMMANDS CONNECTED AXIAL MODULES - ZIGBEE

Code	Power supply	No. of channels	No. modules	Pack Carton
GW A1 241	100 - 240 V ac - 50/60 Hz	2	1	1/12
GW A1 242	100 - 240 V ac - 50/60 Hz	2	2	1/6

CHARACTERISTICS: devices for the sending of 2 independent Zigbee commands via the operation of 2 local push buttons with axial activation. Equipped with 2 inputs (auxiliary axial commads, traditional switches and push-buttons, sensors etc.) for sending Zigbee commands and status. The devices are equipped with two configurable blue LEDs for night-time localisation or to display the status of the loads with on/off type controls and are designed to supply power to the EGO SMART plate within which they are housed.
APPLICATIONS: sending of 2 Zigbee commands (On/off and lamp dimming commands, roller shutter command, generic load command, scenarios). Using the inputs, it is possible to add Zigbee commands to other actuators (lamp on/off and dimming control, roller shutter and Venetian blind control, generic load control, scenarios) or send sensor status over the Zigbee network. Using this device in combination with the EGO SMART plate, 2 further Zigbee commands can be sent, activated via the push-button on the device when the SMART plate has the "SHIFT" function enabled.
NOTES: the devices must be completed with a front button keys: GWA1241 must be completed with push-buttons GW1x553S or GW1x557S; GWA1242 must be completed with button keys GW1x554S or GW1x558S.

AUXILIARY MODULES

GW 10 677

1 COMMAND AUXILIARY AXIAL MODULES

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 677	100 - 240 V ac - 50/60 Hz	1 NO 1A (ACI) 240 V ac	1	1/12
GW 10 678	100 - 240 V ac - 50/60 Hz	1 NO 1A (ACI) 240 V ac	2	1/6

CHARACTERISTICS: auxiliary commands to be used in combination with Zigbee connected axial commands or with EVO axial commands. The devices are equipped with blue LED, for night-time localisation or to display the status of the load.
APPLICATIONS: connected to the local inputs of the connected axial commands, they enable the replication of local load control or the sending of Zigbee commands; connected to the local inputs of the EVO axial commands, they enable the replication of local load control or the management of centralised controls.
NOTES: the devices must be completed with a front button key: GW10677 must be completed with button keys GW1x551S or GW1x555S; GW10678 must be completed with button keys GW1x552S or GW1x556S.

GW 10 679

2 COMMANDS AUXILIARY AXIAL MODULES

Code	Power supply	Output contacts	No. modules	Pack Carton
GW 10 679	100 - 240 V ac - 50/60 Hz	2 NO 1A (ACI) 240 V ac	1	1/12
GW 10 680	100 - 240 V ac - 50/60 Hz	2 NO 1A (ACI) 240 V ac	2	1/6

CHARACTERISTICS: auxiliary commands to be used in combination with Zigbee connected axial commands or with EVO axial commands. The devices are equipped with blue LEDs, for night-time localisation or to display the status of the load.
APPLICATIONS: connected to the local inputs of the connected axial commands, they enable the replication of local load control or the sending of Zigbee commands; connected to the local inputs of the EVO axial commands, they enable the replication of local load control or the management of centralised controls.
NOTES: the devices must be completed with a front button key: GWA10679 must be completed with button keys GW1x553S or GW1x557S; GW10680 must be completed with button keys GW1x554S or GW1x558S.

INTERCHANGEABLE KEYS AND LENSES FOR AXIAL COMMAND MODULES

ECO COMMAND DEVICES

CONNECTED ECO PUSH-BUTTON PANEL MODULE

GW A1 291

CONNECTED 4 COMMANDS ECO PUSH-BUTTON PANEL MODULE - ZIGBEE - FLUSH AND SURFACE MOUNTING

Code	Power supply	No. of channels	No. modules	Pack Carton
GW A1 291	None	4	2	1

CHARACTERISTICS: device for sending 4 independent Zigbee commands via the operation of 4 local push-buttons. The device can be flush-mounted (ChoruSmart supports) or surface-mounted, using the base supplied in the packaging. Surface-mounted installations can be completed with the ONE, GEO, LUX, ICE and EGO plates both in the rectangular 2-module version and in the international 2-module version. The device does not require a power supply (neither network nor battery). **APPLICATIONS:** sending of 4 ZigBee commands (on/off and lamp dimming commands, roller shutter commands, generic load commands, scenarios) via local push-buttons. **NOTES:** the push-button panel must be completed with front button keys: with two GW1x819 1-module button key or with one GW1x820 2-module button key. The push-button panel cannot be used to control the actuators: GWA1521, GWA1522, GWA1523, GWA1526, GWA1531 and the local relay of GWA1916.

INTERCHANGEABLE BUTTON KEYS FOR CONNECTED 4 COMMANDS ECO PUSH-BUTTON MODULE

Code	Colour	No. modules	Pack Carton

GW 12 820	Satin black	2	1/48
GW 14 820	Glossy titanium	2	1/48

NOTES: for use to complete the connected ECO push-button module GWA1291.

GW 14 819

RECESSED COMMAND DEVICES

CONNECTED CONTACT INTERFACES

GW A1 501

2 CHANNELS CONNECTED CONTACT INTERFACES - ZIGBEE

Code	Power supply	N. input channels	Input voltage	Max cable length	Dimensions LxHxD (mm)	Pack Carton
GW A1 501	Battery powered	2	Potential-free	15 m	42x40x20	1/4
GW A1 502	230 V ac - 50 Hz	2	230 V ac	-	42x40x20	1/4

CHARACTERISTICS: interfaces for the connection of 2 independent input contacts (auxiliary axial commands, push-buttons and traditional switches sensors etc.), potential-free (GWA1501) or live (GWA1502). GWA1501 powered by CR2032-type battery (replaceable).
APPLICATIONS: allows commands to be sent for ON-OFF, timed, roller shutters and Venetian blinds, dimmers, scenarios, priority commands and signalling the current state of the contact.
NOTES: installation in flush-mounting boxes, junction boxes or in ChoruSmart GW1x750 blanking modules.

SENSORS

CONNECTED SENSORS

GW 14 856

CONNECTED MOTION SENSORS - ZIGBEE

Code	Colour	Power supply	Output contacts	No. modules	Pack Carton
GW 10 856	Glossy white	100 - 240 V ac - 50/60 Hz	1 NO 2 A (ACI) 240 V ac	1	1/3
GW 15 856	Satin white	100 - 240 V ac - 50/60 Hz	1 NO 2 A (ACI) 240 V ac	1	1/3
GW 13 856	Satin natural beige	100 - 240 V ac - 50/60 Hz	1 NO 2 A (ACI) 240 V ac	1	1/3
GW 12 856	Satin black	100 - 240 V ac - 50/60 Hz	1 NO 2 A (ACI) 240 V ac	1	1/3
GW 14 856	Glossy titanium	100 - 240 V ac - 50/60 Hz	1 NO 2 A (ACI) 240 V ac	1	1/3

CHARACTERISTICS: presence sensor with detection conditioned by the brightness threshold value configured. Fixed lens. Parameters can be set during configuration via the app: brightness threshold value, length of timed switch-off after presence detected. Local live contact for direct load control, loads that can be connected: incandescent and halogen lamps (240Vac): 500W, LED lamps (240Vac): 100W, fluorescent lamps (240Vac): 120W, halogen lamps driven by electronic transformers (240Vac): 250VA. Equipped with 2 inputs (auxiliary axial commands, traditional switches and push-buttons, sensors, etc.) to replicate direct control of the lamp/load connected to the local relay or for the sending of Zigbee commands and status.
The device is equipped with a blue LED to signal detected movement (independent of the brightness threshold).
APPLICATIONS: the devices detect the movement of people and send a signal via Zigbee which activates the lamps or loads. The local contact permits the direct activation of the lamps and/or connected loads. Energy savings: control of the lighting in environments or areas requiring lighting for the passage/ presence of people.
NOTES: do not install the product in watertight plates: the cover membrane does not permit the detector lens to function properly.

CONNECTED MOTION SENSOR - ZIGBEE - IP30

Code	Max. range	Light sensor	Temperature sensor	Colour	Dimensions LxHxD (mm)	Pack Carton
GW A1 511	6 m	3...70.000 lux	0...50 °C	White	82x82x28	1/2

CHARACTERISTICS: motion sensor with horizontal bearing angle: ±45° and vertical bearing angle: ±45°. Includes a light sensor and a temperature sensor. Powered by CR123-type battery (replaceable).
NOTES: wall- or table-mounting with accessories supplied.
To control activation, use the sensor in combination with the connected Zigbee actuators GW1x826, GWA1201 or GWA1202, GWA1221 or GWA1222 (max. 5 sensors per actuator) or with the Zigbee actuators GWA1526, GWA1521, GWA1522, GWA1523 (max. 1 sensor per actuator). The Zigbee connected actuators GW1x826, GWA1201, GWA1202, GWA1221, GWA1222 can only be controlled in combination with the "Home Gateway" GW1x840.

CONNECTED WINDOW SENSOR - ZIGBEE - IP40

Code	Sensor type	Temperature sensor	Material	Colour	Dimensions LxHxD (mm)	Pack Carton
GW A1 513	Magnetic	0...50 °C	Plastic	White	76x26x17	1/6

CHARACTERISTICS: the sensor detects the opening and closing of doors and windows and includes a temperature sensor. Powered by 2 AAA-type batteries (replaceable).
NOTES: installation on doors or windows.
To control activation, use the sensor in combination with the connected Zigbee actuators GW1x826, GWA1201 or GWA1202 (max. 5 sensors per actuator) or with the Zigbee actuators GWA1521, GWA1522, GWA1523 (max. 1 sensor per actuator). The Zigbee connected actuators GW1x826, GWA1201, GWA1202 can only be controlled in combination with the "Home Gateway" GW1x840.

GW A1 513

GW A1 512

CONNECTED SMOKE SENSOR - ZIGBEE - IP20

Code	Siren output	Temperature sensor	Colour	Dimensions (mm)	Pack Carton
GW A1 512	85 dB/3 m	0...50 °C	White	Ø 65x40	1/6

CHARACTERISTICS: the sensor detects the presence of smoke and includes a temperature sensor. Powered by CR123-type battery (replaceable).
NOTES: wall or ceiling installation.
To operate a solenoid valve, use the sensor in combination with the connected Zigbee actuators GW1x826, GWA1201 or GWA1202 (max.5 sensors per actuator if the actuator is configured for automatic solenoid valve reset, unlimited sensors for manual reset) or with theZigbee actuators GWA1521, GWA1522, GWA1523 (max. 1 sensor per actuator if the actuator is configured for automatic solenoid valve reset, unlimited sensors for manual reset). Zigbee connected actuators GW1x826, GWA1201 and GWA1202 can only be controlled in combination with "Home Gateway" GW1x840.

GW A1 514

CONNECTED WATER SENSOR - ZIGBEE - IP20

Code	Siren output	Temperature sensor	Colour	Dimensions (mm)	Pack Carton
GW A1 514	85 dB/3 m	0...50 °C	White	Ø 60x37	1/6

CHARACTERISTICS: the sensor detects the presence of water and includes a temperature sensor. Powered by CR123-type battery (replaceable).
NOTES: floor standing or alternatively it can be fixed to the wall with the GWA1541 accessory.
To operate a solenoid valve, use the sensor in combination with the connected Zigbee actuators GW1x826, GWA1201 or GWA1202 (max.5 sensors per actuator if the actuator is configured for automatic solenoid valve reset, unlimited sensors for manual reset) or with theZigbee actuators GWA1521, GWA1522, GWA1523 (max. 1 sensor per actuator if the actuator is configured for automatic solenoid valve reset, unlimited sensors for manual reset). Zigbee connected actuators GW1x826, GWA1201 and GWA1202 can only be controlled incombination with "Home Gateway" GW1x840.

WALL-MOUNTING SUPPORT FOR WATER SENSOR

Code	Colour	Support dimension (mm)	Probe dimension (mm)	Cable max. length (cm)	Pack Carton
GW A1 541	White	Ø72x25	Ø50x8	85	1/4

APPLICATIONS: to be used for the wall-mounting of the Zigbee water sensor GWA1514.

ACTUATORS

CONNECTED ACTUATORS FOR GENERIC LOADS WITH ENERGY METER

GW 14 826

CONNECTED 1-CHANNEL ON/OFF ACTUATORS WITH ENERGY METER - ZIGBEE

Code	Colour	Power supply	No. output channels	Output contacts	No. modules	Pack Carton
GW 10 826	Glossy white	100 - 240 V ac - 50/60 Hz	1	1 NO 16 A (ACI) 240 V ac	1	1/12
GW 15 826	Satin white	100 - 240 V ac - 50/60 Hz	1	1 NO 16 A (ACI) 240 V ac	1	1/12
GW 13 826	Satin natural beige	100 - 240 V ac - 50/60 Hz	1	1 NO 16 A (ACI) 240 V ac	1	1/12
GW 12 826	Satin black	100 - 240 V ac - 50/60 Hz	1	1 NO 16 A (ACI) 240 V ac	1	1/12
GW 14 826	Glossy titanium	100 - 240 V ac - 50/60 Hz	1	1 NO 16 A (ACI) 240 V ac	1	1/12

CHARATTERISTICS: 1-channel actuator for controlling loads with live NO-type output contact and with measurement of power absorbed and energy consumed (both measurements transmitted via Zigbee). Local LED and push button for control and display of the load status. Controllable loads: incandescent and halogen lamps (240Vac): 1920W, LED lamps (240Vac): 200W fluorescent lamps (240Vac): 200W, halogen lamps driven by electronic transformers (240Vac): 500VA. Equipped with 1 input (auxiliary axial commands, traditional switches and push-buttons, sensors, etc.) to replicate local control of the lamp or for sending Zigbee controls and status. The devices are designed to supply power to the EGO SMART plate, within which they are housed.
APPLICATIONS: on/off and timed control of the load connected to the device via local push-buttons. The lamp can also be controlled via Zigbee by other devices connected to the network (control unit, scenarios). Using the input, it is possible to add local load control points connected to the device, Zigbee controls to other actuators (lamp on/off and dimming control, roller shutter and Venetian blind control, generic load control, scenarios) or send sensor status over the Zigbee network. Automatic load disconnection: the devices can be configured for disconnection from the local load if the consumption (power) threshold defined during configuration is exceeded.

RECESSED ACTUATORS

CONNECTED ACTUATORS FOR GENERIC LOADS

GW A1 521

1-CHANNEL CONNECTED ACTUATOR - ZIGBEE

Code	Power supply	No. output channels	Output contacts	Dimensions LxHxD (mm)	Pack Carton
GW A1 521	230 V ac - 50 Hz	1	1 NO 10A (ACI) 230 V ac	42x40x20	1/4

CHARACTERISTICS: 1-channel actuator for the activation of loads through a potential-free output contact (NO). Suitable for controlling incandescent lamps (230Vac): 2300W, loads driven by toroidal transformers: 450W, loads driven by electronic transformers: 600W, fluorescent lamps: (230Vac): 150W, motors: 500W. Equipped with 1 input for local control of the output.

APPLICATIONS: ON-OFF control, timed commands, priority commands and scenario management. If used in combination with the Zigbee GWA1514 water sensor, the installation of a push-button (NO) is required for the manual opening of the solenoid valve.

NOTES: installation in flush-mounting boxes, junction boxes or in ChoruSmart GW1x750 blanking modules.

GW A1 522

2-CHANNEL CONNECTED ACTUATOR - ZIGBEE

Code	Power supply	No. output channels	Output contacts	Dimensions LxHxD (mm)	Pack Carton
GW A1 522	230 V ac - 50 Hz	2	2 NO 6A (ACI) 230 V ac	42x40x20	1/4

CHARACTERISTICS: 2-channel actuator for the activation of loads through a 230V output contact (NO). Suitable for controlling incandescent lamps (230Vac): 1400 W, loads driven by toroidal transformers: 450W, loads driven by electronic transformers: 600W, fluorescent lamps: 150W, LED lamps (230Vac): 150W, motors: 500 W. Equipped with 2 inputs for local control of the outputs.

APPLICATIONS: ON-OFF control, timed commands, priority commands and management of scenarios.

NOTES: installation in flush-mounting boxes, junction boxes or in ChoruSmart GW1x750 blanking modules.

CONNECTED ACTUATORS FOR GENERIC LOADS WITH POWER METER

GW A1 523

1-CHANNEL CONNECTED ACTUATOR WITH POWER METER - ZIGBEE

Code	Power supply	No. output channels	Output contacts	Dimensions LxHxD (mm)	Pack Carton
GW A1 523	230 V ac - 50 Hz	1	1 NO 10A (ACI) 230 V ac	42x40x20	1/4

CHARACTERISTICS: 1-channel actuator for the activation of loads through a 230V output contact (NO) and measurement of instantaneous power. Suitable for controlling incandescent lamps (230Vac): 2300W, loads driven by toroidal transformers: 450W, loads driven by electronic transformers: 600W, fluorescent lamps: (230Vac): 150W, motors: 500W. Equipped with 1 input for local control of the output.

APPLICATIONS: ON-OFF control, timed commands, priority commands and management of scenarios and measurement of instantaneous power.

NOTES: installation in flush-mounting boxes, junction boxes or in ChoruSmart GW1x750 blanking modules.

CONNECTED ACTUATORS FOR ROLLER SHUTTERS

GW A1 531

1-CHANNEL CONNECTED ACTUATOR FOR ROLLER SHUTTERS - ZIGBEE

Code	Power supply	Max current supplied	Dimensions LxHxD (mm)	Pack Carton
GW A1 531	230 V ac - 50 Hz	6 A-230 V ac (according to 60669-2-1)	42x40x20	1/4

CHARACTERISTICS: 1-channel actuator for the activation of a motor to operate roller shutters, curtains, Venetian blinds, roller blinds, etc. via 2 interlocked output contacts 230Vac. Suitable for the control of motors: 500W. Equipped with 2 inputs for local control of the outputs.

APPLICATIONS: controlling operation/adjustment/stop, priority commands, scenario management and alarm signalling.

NOTES: installation in flush-mounting boxes, junction boxes or in ChoruSmart GW1x750 blanking modules.

LOAD MANAGEMENT

CONNECTED ENERGY METER

GW A1 918

CONNECTED ENERGY METER WITH LOAD CONTROL - ZIGBEE

Code	Power supply	Measure	Dimensions LxHxD (mm)	Pack Carton
GW A1 918	100 - 240 V ac - 50/60 Hz	Via A.T.	42x40x20 mm	1/4

CHARACTERISTICS: measurement of single-phase voltage 100-240Vac 50/60 Hz, current max 70A min 0.05A. The device measures the power consumption and the energy consumed (measures are sent via Zigbee), and includes an algorithm that controls loads (it can handle max 10 loads) according to standards EN 61010-1, EN 61010-2-030. A.T. included in the package.

APPLICATIONS: misuring and monitoring electrical consumptions (power and energy consumed) of a home or a building area. Loads management function: performs the automatic detachment of the loads to prevent the release of the electricity meter due to the exceeding of the contractual threshold and avoid disruptions to the users; the sequence of loads disconnection and reconnection can be set during the configuration step, via APP, in accordance with priority or consumption logics. The loads to be controlled must be connected to Zigbee connected actuators: GW1x826, GWA1201, GWA1202, GWA1221, GWA1222, GWA1523, GWA1526, GWA1521 or GWA1522.

NOTES: installation in flush-mounting boxes, junction boxes or switchboard. It can be installed in ChoruSmart supports, using ChoruSmart GW1x750 blanking modules or in DIN rail mounting support GW16841 + ChoruSmart GW1x750 blanking module.

LOAD MANAGEMENT RELAY

GW A1 916

CONNECTED P-COMFORT LOAD MANAGEMENT - ZIGBEE

Code	Rated voltage (V)	Rated current	Type relay contact	Capacity relay contact	No. of modules EN 50022	Pack Carton
GW A1 916	230 V ac	32 A	Changeover (potential-free)	16 A ACI 250 V ac	2	1/6

APPLICATIONS: the P-Comfort relay can be installed in electrical systems up to 6kW. In the event of overload due to the simultaneous switching-on of several electric loads, P-Comfort prevents the power supply interruption from disconnecting the non-preferential loads controlled by connected Zigbee actuators: GW1x826, GWA1201, GWA1202, GWA1221, GWA1222, GWA1523, GWA1526, GWA1521 or GWA1522 or wired to the relay inside the device (max 10 devices). The sequence of disconnection and connection of non-preferential loads can be set by Priority (regardless of power consumption) or by Power (depending on the power consumption).

NOTES: the connected Zigbee actuators GW1x826, GWA1201, GWA1202, GWA1221, GWA1222 can only be controlled in combination with the "Home Gateway" GW1x840.

SMART PLUG

CONNECTED SMART PLUG

GW A1 526

CONNECTED SMART PLUG 230VAC - GERMAN STANDARD - ZIGBEE

Code	Type of plug	Socket-outlet type	Dimensions ØxH (mm)	Colour	Pack Carton
GW A1 526	2P+E - 10 A	2P+E - 10 A	41x45	White	1/4

CHARACTERISTICS: adapter with socket, side earthing and safety shields. It detects power consumed by the connected loads and sends the data on the Zigbee network.

CLIMATE MANAGEMENT

CONNECTED THERMOSTAT

GW 14 709

CONNECTED THERMOSTAT - ZIGBEE

Code	Colour	Power supply	Output contacts	No. modules	Pack Carton
GW 10 709	Glossy white	100 - 240 V ac - 50/60 Hz	1 NO / NC 5A (ACI) 240 V ac	2	1/3
GW 15 709	Satin white	100 - 240 V ac - 50/60 Hz	1 NO / NC 5A (ACI) 240 V ac	2	1/3
GW 13 709	Satin natural beige	100 - 240 V ac - 50/60 Hz	1 NO / NC 5A (ACI) 240 V ac	2	1/3
GW 12 709	Satin black	100 - 240 V ac - 50/60 Hz	1 NO / NC 5A (ACI) 240 V ac	2	1/3
GW 14 709	Glossy titanium	100 - 240 V ac - 50/60 Hz	1 NO / NC 5A (ACI) 240 V ac	2	1/3

CHARACTERISTICS: flush-mounting thermostat to control heating/cooling systems and manage the temperature in manual mode, including OFF. Control algorithms for two-way systems: two points (ON/OFF), proportional integral (PWM). The thermostat can manage an electrovalve for heating or cooling via the local contact or via Zigbee (in the latter case the electrovalve must be controlled by a Zigbee actuator). The following Zigbee connected actuators can be used: GWA1521, GWA1522, GWA1523, GW1x826, GWA1201 and GWA1202. The thermostat has built-in temperature and humidity sensors. The thermostat includes 1 input for NTC sensor (GW10800 and GW1x900 can be used) for the external temperature measure (eg: for compensation of the temperature locally measured by the thermostat or for protection with floor heating/cooling).

APPLICATIONS: climate control (heating or cooling) of a house or a single zone with the option to manage a daily or weekly heating/cooling profile via APP. The device measures the humidity and can activate, via Zigbee, a dehumidification system displaying/notifying the values on APP, when exceeding a threshold (set during the configuration steps). The connected thermostat can be used also in traditional electrical installations: it doesn't require to be programmed via APP and the input for NTC sensor can only be used for compensate the temperature measured locally by the thermostat.

ACCESSORIES

BLANKING MODULES

GW 14 750

BLANKING MODULES FOR HOUSING ZIGBEE CONTACTS INTERFACES AND ACTUATORS

Code	Colour	No. modules	Pack Carton
GW 10 750	Glossy white	1	1/12
GW 15 750	Satin white	1	1/12
GW 13 750	Satin natural beige	1	1/12
GW 12 750	Satin black	1	1/12
GW 14 750	Glossy titanium	1	1/12

CHARACTERISTICS: 1-module blanking module with pad-printing. Enables the housing and rapid identification of the recessed connected control devices, of the recessed connected actuators and the connected energy meter with load control.

NOTES: snap-in assembly.

MOVEMENT/LIGHT SENSORS - KNX

MOVEMENT

GW A9 531 A

KNX PRESENCE DETECTOR WITH CONSTANT BRIGHTNESS CONTROL - CEILING MOUNTING

Code	Max. assembly height (m)	Light sensor	Dimensions (mm)	Colour	Pack Carton
GW A9 531 A	6	5...2000 lux	Ø 105x44	White	1

CHARACTERISTICS: with 3 PIR sensors and a 360° circular shape operating range. Max. presence detection range: from 4 up to 8m, max. motion detection range: from 10 to 16m depending on the installation height and the type of approach (tangential or radial). Ceiling installation. To be configured with ETS software.

APPLICATIONS: for environments where it is necessary to send activation commands to actuator devices via the KNX bus according to the movements detected and possibly the light intensity measured.

NOTES: equipped with coupling terminal for connection to BUS.

GW A9 543

WALL-MOUNTING FRAME

Code	Suitable for	Dimensions (mm)	Colour	Pack Carton
GW A9 543	GWA9531A	Ø 105x40	White	1

APPLICATIONS: accessory for the KNX presence detector GWA9531A wall installation.

GW A9 545

PLASTERBOARD-MOUNTING BOX

Code	Suitable for	Dimensions (mm)	Pack Carton
GW A9 545	GWA9531A	Ø 78	1

APPLICATIONS: flush-mounting box with spring clip for the KNX presence detector GWA9531A plasterboard installation.

COMPLEMENTARY ITEMS - KNX

INTERFACES

GW 90 873

GATEWAY KNX/DALI2 ADVANCED - MULTIMASTER 64/16 - DIN RAIL MOUNTING

Code	Power supply	Max. no DALI units	Max. no. DALI devices	No. DIN modules	Pack Carton
GW 90 873	100 - 240 V ac/dc - 50/60 Hz	16	64 lighting fixtures	4	1/4

CHARACTERISTICS: gateway that can control via KNX bus up to 64 lamps managed with the DALI protocol. In addition, up to 8 DALI motion detectors or DALI light sensors can be connected. The device supports DALI2 with multimaster operating in accordance with EN 62386-103 ed2. The device provides directly the power supply to DALI lamps and sensors, no additional DALI power supplies are required.

The device supports KNX Secure. To be configured with ETS software.

The device is equipped with a RJ45 LAN port for configuration and/or access via IP. Category 1 device (in accordance with EN 62386-103).

APPLICATIONS: the device also allows to control emergency lamps (with Data Type DT1) and lamps with color control (with Data Type DT8).

NOTES: equipped with coupling terminal for connection to BUS.

ACTUATORS - KNX

DIMMER ACTUATORS

GW A9 303

KNX UNIVERSAL DIMMING ACTUATOR WITH MANUAL OPERATION - IP20 - DIN RAIL MOUNTING					
Code	Power supply	No. output channels	Power max.	No. DIN modules	Pack Carton
GW A9 303	230 V ac - 50 Hz	2	400 W per channel	4	1
CHARACTERISTICS: for the adjustment and switching of incandescent lamps, halogen lamps (high and low voltage), compact adjustable fluorescent lamps (energy saving lamps), 230Vac adjustable LED lamps and fans: max. 100W. Automatic load recognition and light intensity regulation power: 400W per channel or 800W in parallel operation. The device has frontal buttons for manual operation and signalling leds for the operation status of each channel. To be configured via ETS software.					
APPLICATIONS: light intensity regulation, regulation value limitations, soft switchover, block function, forced operation, scenarios, status return on channels, operating hour-counter and signalling for assistance, management during mains or bus failure and reset, diagnosis messages.					
NOTES: equipped with coupling terminal for connection to BUS. Possibility to activate the loads manually, even without the bus voltage.					

FAN COIL ACTUATORS

GW A9 140

KNX FAN COIL ACTUATOR - IP20 - DIN RAIL MOUNTING							
Code	Power supply	No. inputs channels	Valves output contacts	Fan relay contacts	Additional relay contacts	No. DIN modules	Pack Carton
GW A9 140	230 V ac - 50 Hz	2	0.5A (24-230 V ac), triac	8A (AC1) 250 V ac	16A (AC1) 250 V ac	4	1
CHARACTERISTICS: actuator for the command of fan coils with 2- or 3-point heating/cooling valves and up to 3 fan levels in 2- and 4-pipe systems. Equipped with an additional programmable relay (eg: to control a heating/cooling battery or as a switching output) andtwo potential-free inputs for windows contact or temperature probe sensor (es: GWA9145) and condensate monitoring. The device has frontal Test buttons (for a simple check of fan levels and heating/ cooling switching during the setup steps) and 9 signalling leds for theoperation status. Regulation is via an external control variable or the integrated ambient thermostat (in the latter case it is necessary to add the temperature probe sensor). To be configured via ETS software.							
APPLICATIONS: KNX timed thermostats and thermostats that can be used with the fan coil actuators GWA9140 and GWA9141: - THERMO ICE KNX surface-mounting thermostat GW16976CB/CN/CT: for controlling all the functions of the fan coil actuators (that shall be configured to work with kind of used controller "remote controller") and commanding the fan in both automatic and manual mode. - THERMO ICE KNX flush-mounting thermostat GW16974CB/CN/CT: attention - this thermostat can only be used in KNX-SYSTEM mode (configurable with ETS). For controlling the fan coil actuators (that shall be configured to work with kind of used controller "remote controller") and commanding the fan in auto-matic mode only - i.e. the thermostat conveys the valve opening request (0..100% byte) to the fan coil actuators, which automatically define the fan speed; the fan speed cannot therefore be controlled via the thermostat. - Other KNX SYSTEM timed thermostats, thermostats and probes: attention - these models permit only limited use of the control functions of the fan coil actuators (that shall be configured to work with kind of used controller "remote controller"), so their validity should be evaluated for the individual situation on the basis of the application requisites.							
NOTES: equipped with coupling terminal for connection to BUS.							

GW A9 141

KNX FAN COIL ACTUATOR 0-10V - IP20 - DIN RAIL MOUNTING							
Code	Power supply	No. input channels	Valves and fan output	Fan relay contacts	Additional relay contacts	No. DIN modules	Pack Carton
GW A9 141	100-240 V ac - 50-60 Hz	2	0-10V, max 10mA	6A (AC1) 250 V ac	16A (AC1) 250 V ac	4	1
CHARACTERISTICS: actuator for the command of fan coils with 0-10V proportional heating/cooling valves and up to 3 fan levels (or with 0-10V proportional output) in 2- and 4-pipe systems. Equipped with an additional programmable relay (eg: to control heating/cooling battery or as a switching output) and two potential-free inputs for windows contact or temperature probe sensor (es: GWA9145) and condensate monitoring. The device has frontal Test buttons (for a simple check of fan levels and heating/cooling switching during the setup steps) and 9 signalling leds for the operation status. Regulation is via an external control variable or the integrated ambient thermostat (in the latter case it is necessary to add the temperature probe sensor). To be configured via ETS software.							
APPLICATIONS: KNX timed thermostats and thermostats that can be used with the fan coil actuators GWA9140 and GWA9141: - THERMO ICE KNX surface-mounting thermostat GW16976CB/CN/CT: for controlling all the functions of the fan coil actuators (that shall be configured to work with kind of used controller "remote controller") and commanding the fan in both automatic and manual mode. - THERMO ICE KNX flush-mounting thermostat GW16974CB/CN/CT: attention - this thermostat can only be used in KNX-SYSTEM mode (configurable with ETS). For controlling the fan coil actuators (that shall be configured to work with kind of used controller "remote controller") and commanding the fan in auto-matic mode only - i.e. the thermostat conveys the valve opening request (0..100% byte) to the fan coil actuators, which automatically define the fan speed; the fan speed cannot therefore be controlled via the thermostat. - Other KNX SYSTEM timed thermostats, thermostats and probes: attention - these models permit only limited use of the control functions of the fan coil actuators (that shall be configured to work with kind of used controller "remote controller"), so their validity should be evaluated for the individual situation on the basis of the application requisites.							
NOTES: equipped with coupling terminal for connection to BUS.							

GW A9 145

TEMPERATURE PROBE SENSOR					
Code	Capsule diameter (mm)	Capsule legh (mm)	Cable length (m)	IP degree	Pack Carton
GW A9 145	6	30	4	IP65	1
CHARACTERISTICS: NTC sensor 100K.					
NOTES: to be used in combination with KNX fan coil actuators.

TRADE ASSISTANCE

Configuring and budgeting the cost of domestic electrical systems

HOME is an online software available on the **gewiss.com** website that can be used from any internet-connected device, where you can configure and budget the cost of a home electrical system through a simple wizard guide. The software lets you choose between three system levels (traditional, connected, KNX), proposing a customisable composition.

Through the appropriate selection steps, the user is guided through the configuration of the electrical system by selecting:

- Areas of the home
- Electrical system equipment and technology
- Type and colour of plates

At the end of the configuration you can view the list of materials for the system and export it to PDF and EXCEL.

Projects made with the configurator can be saved and reloaded for any subsequent changes.

Scan the QR Code and discover all the benefits of the online Software for budgeting your home electrical systems

TRADE ASSISTANCE

The Technical Support Service gives you direct contact with GEWISS technical officers for answers to technical questions regarding: installations, regulations, products, or software design queries.

Log in to MyGewiss and fill out the appropriate form to submit a specific request to our Technical Assistance Service for a timely response, or call the Technical Support Service.
