

USB Chargers

CHORU **S** MART

Energy always within reach

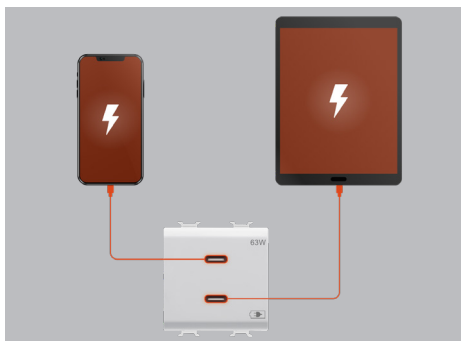

Say goodbye to scattered chargers and slow adapters. With our new **USB Type-C** chargers, every room in your home becomes a space ready to charge smartphones, tablets and electronic devices quickly, safely and intelligently. Installed like a standard outlet, they blend seamlessly into your interior design thanks to their elegant finishes and compact size. And with **Power Delivery technology**, you'll always have all the power you need, without waste.

Advantages

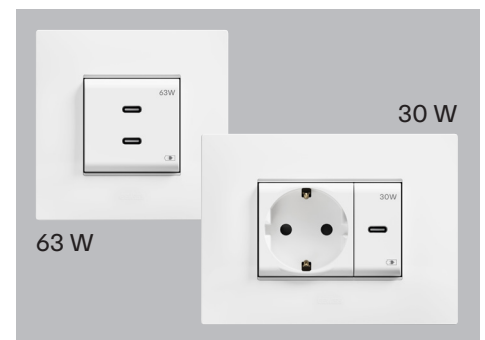

Aesthetics and ease of use

Forget bulky chargers and constantly occupied outlets: with a **single power point**, you can recharge all your electronic devices, from laptops to smartphones, tablets and small appliances. ChoruSmart USB chargers **integrate elegantly** into any environment, ensuring visual cleanliness and a tidy space.

Adaptive charging and protection

Thanks to **Power Delivery technology**, the energy supplied by USB chargers is dynamically distributed to connected devices based on their individual needs. **Intelligent protection** prevents overloads and short circuits, ensuring safe charging for all your devices.

Compact size

GEWISS offers you maximum power with minimal space usage, thanks to USB chargers available in two versions:

63 W - with 2 USB-C ports housed in 2 ChoruSmart modules

30 W - with 1 USB-C port housed in 1 ChoruSmart module

GEWISS

Suitable for any setting

With their compact size, ChoruSmart USB chargers are perfect for all spaces where fast charging access for electronic devices is needed.

- + Homes
- + Hospitality facilities
- + Workplaces

Available in 4 colours (white, natural beige, black and titanium) and 2 different finishes (glossy and satin), the USB chargers stylishly adapt to any environment and usage context.
