

A complete range of commands and protections, energy and signal sockets, temperature control units, comfort management solutions, and acoustic/visual signalling devices. The commands, available with two different buttons designs, are illuminated with LED light and feature elegant indicator icons. System Pura is available in two colours and two finishes: glossy white, satin black and satin white. The series proposes intuitive and modern solutions designed to enhance any space. These features make it ideal for both residential applications and special installations, where reliability and aesthetics must coexist harmoniously.

Category	Emergency light	Description	Emergency light (for power outages)
Supply voltage	230 V ac - 50/60 Hz	Power supply batteries	Ni-Mh 4,8 V 40 mAh
Minimum autonomy	1 h	Colour	Glossy white
