

Range of plates available in 9 colour tones and 3 finishes: glossy, satin, and matric. Compatible with rectangular boxes up to 12 modules. The plates, with a completely flat surface, blend elegantly with the geometry of the commands, offering understated and modern solutions for any environment. The themed lines in monochrome, natural and neutral tones enhance spaces with discretion, meeting the needs of any environment. The offering also includes watertight IP55 plates in 3 and 4 modules formats. The frontal installation of devices simplifies every work, allowing the attachment and release without removing the support from the flush-mounted box. A solution designed to simplify changes and updates, reducing intervention time.

Category	Watertight plates	Description	4 modules
Colour Plate	White	Finishing	Glossy
Material	Technopolymer	IP degree	IP55 (with closed lid)
Lid	With membrane	Membrane color	Transparent
For flush mounting box	Rectangular 4 modules	Fixing	2 screws (included)
Type of screw	6/32 x 30 mm	Screw material	Galvanised steel
Included support	Self-supporting	Gasket	Vulcanized expanded rubber
Glow Wire Test	650 °C	Thermo-pressure with ball	70 °C
Standard	EN 60669-1	Operating temperature	-25 +60 °C
UV resistance	Yes (ISO 4892-2)	Halogen Free	Halogen-free in compliance with EN IEC 63355
Electrocod	0110
