

A complete range of commands and protections, energy and signal sockets, temperature control units, comfort management solutions, and acoustic/visual signalling devices. The commands, available with two different buttons designs, are illuminated with LED light and feature elegant indicator icons. System Pura is available in two colours and two finishes: glossy white, satin black and satin white. The series proposes intuitive and modern solutions designed to enhance any space. These features make it ideal for both residential applications and special installations, where reliability and aesthetics must coexist harmoniously.

Category	TV/SAT socket-outlet	Description	Direct
Type	With passage of current	Colour	Glossy white
Attenuation	0 dB	Frequency	5-2400 MHz
Shielding	Class A	For connector type	F-Female
Cable fixing	Pressure-operated	Case	Pressure casting zamak metal body
No. modules	1	Material	Technopolymer
Electrocod	0131
