

IEC 309 HP: range of straight plugs with phase inverter socket-outlets complying with the safety requisites defined by the international Standards IEC 60309-1 and IEC 60309-2 and assimilated at European level as EN 60309-1 and EN 60309-2. Allow the fast and safe exchange of two phases by using a screwdriver to reverse the direction of rotation of three-phase motors for mobile and fixed equipment. This range expands GEWISS's assortment straight plugs 16-32A, with degree of protection IP44/IP54 for protected versions and IP66/IP67/IP68/IP69 for watertight versions to ensure full protection for all applications. The technopolymers and thickness used for the parts made of insulating material guarantee an elevated degree of mechanical and chemical agent resistance. All the pins of the IEC 309 HP INVERTER plugs are surface-treated with nickel-plating to ensure full protection against corrosion, oxidation and abrasion.
