

## Product Data Sheet GW68466

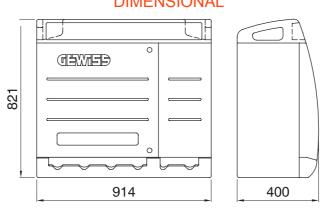

68 ACS Range

The distribution board for construction sites type Q-BOX are designed to withstand the effects of wear, impact and the stress caused by atmosph. They come in pre-wired versions fitted with interlocked socketoutlets (with or without a fuse-holder) up to 63Å, or socket-outlets type IEC 309.. The wired versions are also equipped with accessories like the emergency push-button, lockable doors, stainless steel tear-proof cablefastening hooks, and built-in transportation handles on the upper part of the board. To ensure the best possible positioning on the construction site, 68 Q-BOX ACS boards can be surface-mounted, floor-mounted or fitted on poles.

| Туре                      | Q-BOX 6                  | board type                | Empty            |
|---------------------------|--------------------------|---------------------------|------------------|
| Colour                    | Light blue               | Outer dim. LxHxD (mm)     | 914x821x400      |
| Weight (kg)               | 21                       | Accordance with Standards | EN 61439-4 (ACS) |
| Characteristics           | UV resistance (EN 62208) | IP degree                 | IP55             |
| Mechanical resistance     | IK10                     | Glow wire test            | 650 °C           |
| Thermo-pressure with ball | 70 °C                    | Insulation class          |                  |
