ELIA FL

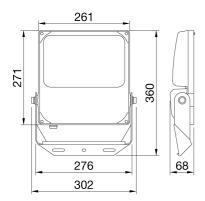

ELIA FL is an LED floodlight, available in medium and high-power versions for outdoor and indoor applications in industrial, tertiary and sports contexts, such as façades, warehouses, car parks and sports fields. Available in 4 different sizes and power steps (50 W, 100 W, 150 W and 200 W), the range allows for great flexibility with its multiple possible combinations: 3 colour temperature options (3,000 K warm white, 4,000 K neutral white and 5,700 K cool white) with a colour rendering index of more than 80; 2 integrated power supply options (On/Off and DALI); and 2 optics options (60° and asymmetrical). The luminaire can be ceiling, wall or floor-mounted through the integrated adjustable steel bracket with a protractor, or pole-mounted (in poles with diameter up to 61 mm) through a dedicated accessory (to be ordered separately). Thanks to its black powder-coated die-cast aluminium body and its front glass, the fixture is tough, durable (IP66 and IK08) and is able to withstand harsh environmental conditions (such as ambient temperature variations from -30°C to +50°C).

Warranty 5 years ELETRICAL AND LIGHTING FEATURES
Stocking temperature -40°+80° Supply voltage 220-240
Operating temperature $-30^{\circ}\text{C} \div +50^{\circ}\text{C}$ Rated frequency (Hz) 50/60
MATERIALS - Driver Buil
Body Die-cast aluminium - Driver failure rate F10 (Tq=25°C) > 80.00
Shield type Tempered 4mm-thick surface glass with Gewiss logo Overvoltage protection DM 4 kV/ CM 4
Optic High-efficiency lens and reflector unit Control System ON / C
Gasket - INSTALLATION AND MAINTENANCE
Locking Hook - Mounting and installation Floodlight mast - Ceiling - Wall - Gro
External screw Stainless steel Tilt Rotation on bracket with integral goniome
Colour Powder coating Wiring With power ca
STANDARDS AND APPROVALS - Fixing Via integrated brace
Classification - Light souce replaceability Non-replacea
Device with reduced surface temperature - Controlgear replaceability By profession
DIN 18032-3 certification Not available Driver Box Buil
IPEA - Maximum surface exposed to the wind 0,07
Insulation class I Buil
IP degree IP66
Mechanical resistance IK08
Glow Wire Test 750 °C
