

Complete system for the connection and distribution of LAN networks in residential and tertiary sector environments. The range includes fibre optic solutions, wall panels, floor cabinets and copper wiring products.

Data Center boards and cabinets are available in a wide choice of modularity and different depths (up to 1000mm), to adapt to every application need.

Made with high quality materials (static flow at full load can reach 1000kg), the products are also characterised by their simple wiring (thanks to large internal volumes) and complete customisation, with removable and reversible front doors.

Categoria	19" floor-standing cabinet	Material	Aço
Acabamento	Textured	Cor	Grey (RAL 7035)
Unidade de cablagem	42U	Tipo de porta	Reversible
Door opening	135°	Static load capacity	1000 Quilograma
No. uprights	2	Profundidade (mm)	600 mm
Dim. externas BxHxP (mm)	600x1985x600	Grau de protecção	IP20
Código Electrocod	3752
